KEEP LIGHT FROM MILK
 Keep light from milk to prevent
 loss of riboflavin, its most important
 vitamin element. If you don't
 meet the milkman, leave out a covered,
 insulated box for bottles of
 milk. Remember that light hurts
 milk more than heat does in a short
 time.

1. Listen for the dial tone. This tone
 is your signal that the equip-
 ment is ready to take your call.

2. Dial each letter and digit of the
 number in its right order.

3. Draw the dial all the way to the
 finger stop.

4. Remove your finger and let the
 dial return naturally, without
 forcing or hurrying.

5. If you make a mistake while dial-
 ing, hang up for a few seconds
 and then start your call again.
