KEEP LIGHT FROM MILK

Keep light from milk to prevent
loss of riboflavin, its most important
vitamin element. If you don't
meet the milkman, leave out a covered,
insulated box for bottles of
milk. Remember that light hurts
milk more than heat does in a short
time.

Party Line Pointers:
1. Space your calls instead of making
a whole series.

2. If yours is an emergency call and
the line is in use, explain the cir-
cumstances to the person using
the line.

3. If you are calling from a dial
telephone always make certain
the line is clear before you dial.

4. When the children use the tele-
phone, ask them to be consider-
ate, too.

5. Replace the receiver properly
when you finish your call.
