types of calls

STATION-TO-STATION

Call station-to-station if you will talk with anyone who answers. Rates are lower than person-to-person. Charges begin when the called telephone answers.

PERSON-TO-PERSON

Call person-to-person when you must talk to a particular person or extension telephone. Rates are higher than station-to-station. Charges begin when the called person or extension answers.

COLLECT

Most calls can be made "collect" if the person you are calling agrees to pay the charge. If you want the call made collect, please be sure to tell the operator when you give her the call.

MOBILE AND MARINE SERVICE

You can make local and long distance calls to automobiles, trains, trucks and boats equipped for mobile telephone service. Ask long distance for the mobile service operator, or the marine operator.

CONFERENCE

You can talk with several people in different places at the same time. Tell the long distance operator you wish to make a conference call.

how to make calls

DIRECT DISTANCE DIALING

You can dial station-to-station calls to many places in the United States and Canada.

For further information on Direct Distance Dialing see Page 4.

PLACING CALLS WITH OPERATOR

When you must place your long distance calls with the operator, give her the area code and the telephone number. *If you do not know the area code, give the name of the town and state. If you do not know the telephone number, give the name and address and tell the operator whether it is a station or person call.*

Give your own telephone number *only* when the operator asks for it. Giving it to her *before* she is ready to receive it may delay the handling of your call.

Upon request the operator will notify you at the end of a stated period of time on long distance calls.

overseas calls (Including Alaska and Hawaii)

Calls to practically all the world's telephones can be made from your telephone. Tell the long distance operator you wish to place an overseas call and give her the name of the country you are calling.
