Have the right number when you
 call. It's natural to trust to memory
 —but when memory plays tricks
 with a telephone number, you're
 delayed. When you are not sure of
 a number—please look it up in the
 telephone directory.

In these busy days when saving
 time is so important, more and
 more telephone users are following
 the thoughtful way of answering
 the telephone: "Harry Smith speak-
 ing." Such an introduction estab-
 lishes identity, saves time and
 makes a good impression.
