TO PAINT SCREENS

To paint a screen, or cover it with insect repellent, fasten a piece of old carpet to a block of wood. By using this implement instead of a brush, you will save lots of time and avoid lots of splattering.

EXPLOSION IN OVEN

If you burn the inside of the oven
with an exploded potato or some-
thing, soak a cloth in ammonia and
let it stay on the burned places an
hour or so, after which you can
scrape the spots clean without
harming the enamel.

KEEP LIGHT FROM MILK

Keep light from milk to prevent
loss of riboflavin, its most im-
portant vitamin element. If you don't
meet the milkman, leave out a cov-
ered, insulated box for bottles of
milk. Remember that light hurts
milk more than heat does in a short
time.
