

HELPFUL INFORMATION

YOUR TELEPHONE NUMBER IS IMPORTANT

It's smart to make it easy for your customers to reach you. So why not include your telephone number on your stationery, statements and all advertising pieces? Show your area code, too—it helps distant parties call you faster.

When You Hear a "BEEP" Tone

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the Telephone Company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the Company's tariffs and not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

Attachments to Telephones

The Telephone Company furnishes all equipment necessary to provide telephone service. In the interests of safety and good service, no equipment, apparatus or device not furnished by the Telephone Company may be attached to, or used or connected with, its facilities, except as provided in the Company's tariffs.

Employee Identification Cards

For your protection, any employee who visits customer premises carries an official identification card showing his or her name, photograph and signature. If you have the slightest doubt about anyone who says he's "from the Telephone Company" please ask to see his card.

Telegrams

You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph company—see the listings of that company in this directory—and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

Out-of-Town Directories

Directories of other cities may be obtained at a nominal charge. Call our Business Office.

Telephone directories of the principal cities and towns in the Western States may be consulted at our Business Office.

Automatic Answering Set

Certain telephones are equipped with an automatic device, known as an Automatic Answering Set, which answers the telephone mechanically when no person is available. It then makes a recorded announcement.

If your call is answered by an Automatic Answering Set, listen carefully for the announcement which will be self-explanatory.

Some of these sets will also record a message from the caller.

Tariffs

Tariffs which show rates and rules for telephone service and facilities are on file with the California Public Utilities Commission and are available in our Business Office for public inspection. In addition, leaflets covering basic rates for service are available on request.

On the Cover

A factor of increasing importance to the economic growth of Sacramento is the expansion of the Aero Space Industry. Within the immediate area are testing facilities and the largest rocket factory in the Free World.

This industry and other allied Companies employ many thousands of Sacramentans.
