"Beep" Tone

Occasionally people need to record or monitor a telephone conversation for business or other reasons. When this is being done, you will hear a beep tone every 15 seconds to let you know that your conversation is being recorded or monitored. This signal is legally required to protect you.

Calling Another Party on Your Line

If you always hear a busy signal or a high pitched tone when calling a certain local number, it may be that the number is on your party line. To find out if it is and how to complete your call, dial 611 for Repair Service.

Customer Provided Equipment

Equipment, apparatus, devices or systems not furnished by the Telephone Company may be used with telephone instruments and associated equipment furnished by the Telephone Company provided such use complies with the Company's tariffs. Employee Identification Cards

For your protection, all telephone people who visit your home or office carry a Pacific Telephone identification card showing their name, photograph, signature and physical description.
