

# types of calls

## Station

Dial a station call direct if you'll talk with anyone who answers. Charging starts when the called telephone is answered. Rates are lowest for Unassisted Station Calls. If you require charges quoted or special billing arrangements, (collect, credit card, etc.) place the call with the Operator. Rates are higher for Operator Assisted Calls. See Long Distance Rate pages for application to coin telephones.

## Person

Place a person call with the Operator when you wish to reach a particular person or extension. Charging starts when conversation begins with the extension phone, the person called or anyone else agreed upon. Rates are highest for Operator Assisted Person Calls.

## Collect, Credit Card and Calls Charged to Another Number

Call collect if the person or firm you are calling will agree to pay the charge. You can also bill calls to your credit card or to another number. Place calls with the Operator. Operator Assisted Call rates apply.

## Conference

You can talk with several people in different places at the same time. Dial Operator and ask for the Conference Operator.

## Mobile and Marine Calls

You can make calls to autos, trucks, trains, aircraft and boats equipped for telephone service. Dial Operator and ask for the Mobile Service Operator or the Marine Operator unless you've been instructed otherwise.

## Calls to Other Countries

Calls to most of the world's telephones can be made from your phone. Dial Operator and give the name of the country you wish to call. Rates and reduced rate periods on calls to other countries differ from those on calls to U.S. points.

## Toll Free Calls

You can call free to phone numbers that are preceded by Zenith, Enterprise or the Area Code 800. Dial Operator and ask for Zenith, or Enterprise numbers. Dial numbers direct that are preceded by Area Code 800.

Upon request the Operator will try to notify you at the end of a stated period of time on Long Distance Operator handled calls.
