ERRORS IN THIS DIRECTORY

The Company does not assume any liability because of errors or omissions in compiling this book. Sometimes, despite care and attention, errors will occur. Please check your listing in this directory. If it is incorrect in any way, please call the Business Office so that it may immediately be corrected in our records as well as in subsequent issues of the telephone directory.

CHANGES IN DIRECTORY LISTINGS

In order that your listing may be shown correctly in the following directory issue you should notify the Business Office, preferably in writing, of any change that may occur, such as the city changing your house number or street name, as soon as the change is made.

To lessen the possibility of error, it will be helpful if you report any changes in listings as these changes occur, rather than at the closing date of the directory, because of the great amount of work necessary in preparing the directory for the printer.

Changes can be made only up to the closing date.

BUYER'S GUIDE ADVERTISING

Rates and other information regarding advertising in the Buyer's Guide will be furnished upon request.

COPIES OF THIS DIRECTORY

If you desire additional copies of the directory, or if you do not wish a directory for each telephone you have, you may arrange with the Business Office and your requirements will be cared for.

How To Use The Telephone

OBTAIN TELEPHONE NUMBER FROM DIRECTORY

Please obtain the desired number from the latest issue of the telephone directory. If the listing is not found, call Information.

PRONOUNCING TELEPHONE NUMBERS AND SPEAKING OVER THE TELEPHONE

0082—"Oh, Oh, eight two."
0273—"Oh two, seven three."
4418—"Four four, one eight."
2100—"Two one, hundred."
3000—"Three thousand."
10796—"One oh seven, nine six."

Speak slowly and clearly, in an even tone of voice, directly into the transmitter with the lips just clearing the mouthpiece.

LISTEN FOR SIGNALS

After placing a call, listen for the ringing signal, busy signal, or report from the operator. Please do not abandon the call until

the called party has had a reasonable time to answer. The ringing signal is a "burring" sound heard at regular intervals. The busy signal is a steady "buzz-buzz-buzz" sound, indicating that the called line is in use.

CALLING FROM A COIN BOX TELEPHONE

Before depositing a nickel, please take the following precautions:

- On a dial telephone—listen for dial tone.
- On a manual telephone—listen to be sure no one else is using the line.

If the call is not completed the coin will be returned at the time or after the receiver is hung up. Between successive calls the receiver should be replaced for at least five seconds.

Any service difficulty or coin collection error should be reported promptly to the operator.

Method of Dialing

DIALING A LOCAL CALL

Dial the first two letters of the office name, being careful to use the correct spelling, and each figure of the number (including the zeros, if any).

For example, to call DO uglas 5997:

- Lift the receiver and listen for dial tone (a steady humming sound).
- Keeping the receiver off the hook, place finger in opening where you see the letter "D."
- Turn the finger wheel until your finger strikes the stop; then release and allow wheel to return to normal.
- Do the same with the letter "O", and then the figures 5-9-9-7, in that order.

MISTAKES TO AVOID

Please do not mistake the BLACK letter "O" for the RED figure "0" (zero); nor the BLACK letter "I" for the RED figure "1".

Please do not force or retard the return motion of the finger wheel.

OTHER DETAILS TO OBSERVE ABOUT DIALING

If you realize that an error has been made either before dialing is completed or before the called number has answered, hang up the receiver and then try the call again after a few seconds.

Always hang up the receiver for a few seconds between calls and listen for dial tone.

Please do not turn the dial finger wheel while talking as it may break the connection.

Please do not attempt to dial out-of-town telephone numbers. Please refer to Page IV of this directory regarding the placing of Inter-City calls.

To Call Another Party on Your Own Line, dial "OPERATOR", give her the number you wish to call, and state that it is the number of the other party on your line. Hang up for a sufficient time to allow the operator to ring the other party and for the called party to answer, then lift the receiver and start conversation. If no answer is received within a reasonable length of time, signal the operator and ask her to ring the number again.

HOW TO MAKE AN EMERGENCY CALL IN THE DARK

Lift the receiver, listen for dial tone, and then place your finger in the first dial opening below the finger stop. Dial this figure (zero) and an operator will answer. Explain the situation, giving her your number and the details of your call and she will assist you.
