

How to Use This Directory

This directory contains most of the numbers you have occasion to call. You can obtain the numbers of new telephones, which have been installed since the directory was printed, by calling "Information" or Dialing 411. If a number has been changed since the directory was printed you can obtain the new number by calling the one listed in this directory.

DIRECTORY LISTINGS

For each subscriber, a listing is included in the alphabetical directory without additional charge.

TO FIND A LISTING

1. *Look under different spellings* if you don't find the name at first.
2. *Look under initials and first names.* For example, you may know a person as "Adam Smith," but he may have chosen to be listed as "A Douglas Smith."
3. *Use the address as a check.* For example, you may know a person's last name but the fact that he lives at a certain address will single him out from others of the same name.
4. *The abbreviation indicating business or profession* serves as a guide. For example, there may be three Smiths in a large office building, but the business abbreviation after his name may enable you to select the one you want.
