HOW TO DIAL

REMEMBER

- Get the correct number from the current telephone directory. If the listing is not found, please call "INFORMATION" by dialing "411".
- Listen for the "hum" of the dial tone.
- Dial the first two letters and the numeral of the central office name, then the remaining figures in the number. If the figures are followed by a letter, such as W, J, R, or M dial this letter also.
- Remove your finger and let the dial return freely after each turn. Forcing or retarding the return motion of the dial may result in a wrong number.

OTHER DIALING SUGGESTIONS

Be careful not to mistake the letter "O" for the figure "0" (zero); or the letter "I" for the figure "1" (one). If your finger slips or a mistake is made hang up for a moment. Then after listening for dial tone again, redial the complete number. While dialing, another person comes on the line, tell him the line is in use, then hang up for a moment. After listening for dial tone again redial the complete number. Otherwise a wrong number may result. Before you dial you hear someone else dialing tell him you have interfered with his call. Then hang up and make your call later. Do not turn the dial while talking. It may break the connection. Always replace the receiver for a few seconds between calls.

- If you encounter any difficulty, dial "Operator" (zero) and explain it to her. She will be glad to help you.

MESSAGE RATE SERVICE

If you reach the wrong number or are cut off, report the occurrence to your operator.

TO CALL ANOTHER TELEPHONE ON YOUR PARTY LINE

To ascertain the telephone number of a party on your line call "REPAIR SERVICE" by dialing "611".

To call another party on the same line, dial "Operator" (zero). Give her the number you wish to call and tell her that it is a number of another party on your line and she will assist you.

TELEPHONE NUMBERS TO BE DIALED

From dial telephones, dial the telephone number, including the numeral in the central office name, on all calls within the San Francisco Zone (see page 2).

From dial business telephones, except coin telephones, also dial the telephone number, including the numeral in the central office name, on calls to telephones in the East Bay Zone (see page 3). From all other telephones, such calls should be placed by number with the local "Operator".

PUBLIC TELEPHONES

Instructions are posted near telephone instruments. Please report any service or collection error to the operator. A charge will be made on calls which are not
