KEEP LIGHT FROM MILK

Keep light from milk to prevent loss of riboflavin, its most important vitamin element. If you don't meet the milkman, leave out a covered, insulated box for bottles of milk. Remember that light hurts milk more than heat does in a short time.

OILED ICE TRAYS

Rub salad oil or cooking oil on the outsides of ice trays before you put the trays in the freezer. When you want a tray of ice, it will slide right out.
