TO GLUE FURNITURE

In gluing a loose furniture joint,
remember that glue doesn't provide
strength in filling an open
space, so first put a strip of thin
cotton cloth over the piece that
fits into the mortise. Then do the
gluing, tie the joint firmly to-
gether and let it set for 24 hours.

KEEP LIGHT FROM MILK
Keep light from milk to prevent
loss of riboflavin, its most import-
ant vitamin element. If you don't
meet the milkman, leave out a
covered, insulated box for bottles
of milk. Remember that light hurts
milk more than heat does in a
short time.
