Here's how you may be sure of
getting your party more often
when you dial:

1. Look up your number in the latest directory.
2. Listen for the steady hummm of the dial tone.
3. Keep your eye on the dial.
4. Wait a minute before you decide your party isn't home.

The Classified Telephone Directory tells purchasers where to buy your goods.

Party Line Pointers:

1. Space your calls instead of making a whole series.
2. If yours is an emergency call and the line is in use, explain the circumstances to the person using the line.
3. If you are calling from a dial telephone always make certain the line is clear before you dial.
4. When the children use the telephone, ask them to be considerate, too.
5. Replace the receiver properly when you finish your call.

Have the right number when you call. It's natural to trust to memory-but when memory plays tricks with a telephone number, you're delayed. When you are not sure of a number-won't you look it up in the telephone directory?
