had the feeling that you're not quite sure of a familiar telephone number you're about to call?, Even the number of a friend you call quite often? Your memory tells you it's 3198. Or is it 3189? The best way to settle it is to look up numbers before you call.

You'll save time—and avoid the delay and embarrassment of having a stranger answer if your memory tricks you into getting an incorrect number.

It can be an important aid in verifying telephone orders — verifying an illegible name where address is correct —verifying names for cashing checks — locating customers who have moved — locating delinquent debtors.

IF YOU HAVE DELIVERY SERVICE

Preparing routes by streets and areas - verification of name when only address is known - pick-ups and deliveries - locating deliveries to wrong addresses.

Hundreds of firms subscribe to this Directory, and depend on its information, which is as accurate as your Telephone Book.
