In Memoriam

*Twilight and evening bell,
And after that the dark!
And may there be no sadness of farewell,
When I embark.
For tho' from out our bourne of Time and Place
The flood may bear me far,
I hope to see my Pilot face to face
When I have crost the bar.*

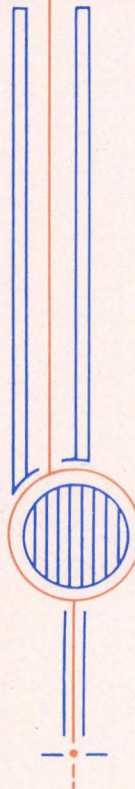

—Tennyson.

THE COLLEGE

SALUTATION

HISTORY is a record of events! And so, as we near the close of the thirty-fifth session there is recorded between the two covers of this 1931 CHIPS, another chapter of Alma Mater's history.

Thirty-five years of continuous effort in the field of dental education has been indelibly recorded as testimony of sustained interest in public health service since her organization; and as *Time* moves ahead to the *Future* when the *Present* will be the *Past* and you will have taken your place in the world, your 1931 CHIPS will recall fond memories of your college days and your good deeds will endure and serve as a reminder that:

"To live in hearts we leave behind;
Is not to die."

The past ten years have witnessed the greatest changes in dental education, namely, the graduation of the first and the last four year dental classes; the advance to pre-dental standards for entrance to dental study; the end of the proprietary period in dental education and the advent of the public trust with a Class "A" rating; the reorganization of the Alumni Association and the establishment of the Lecture and Postgraduate Foundation; and steps actively taken to go forward to union with Stanford University.

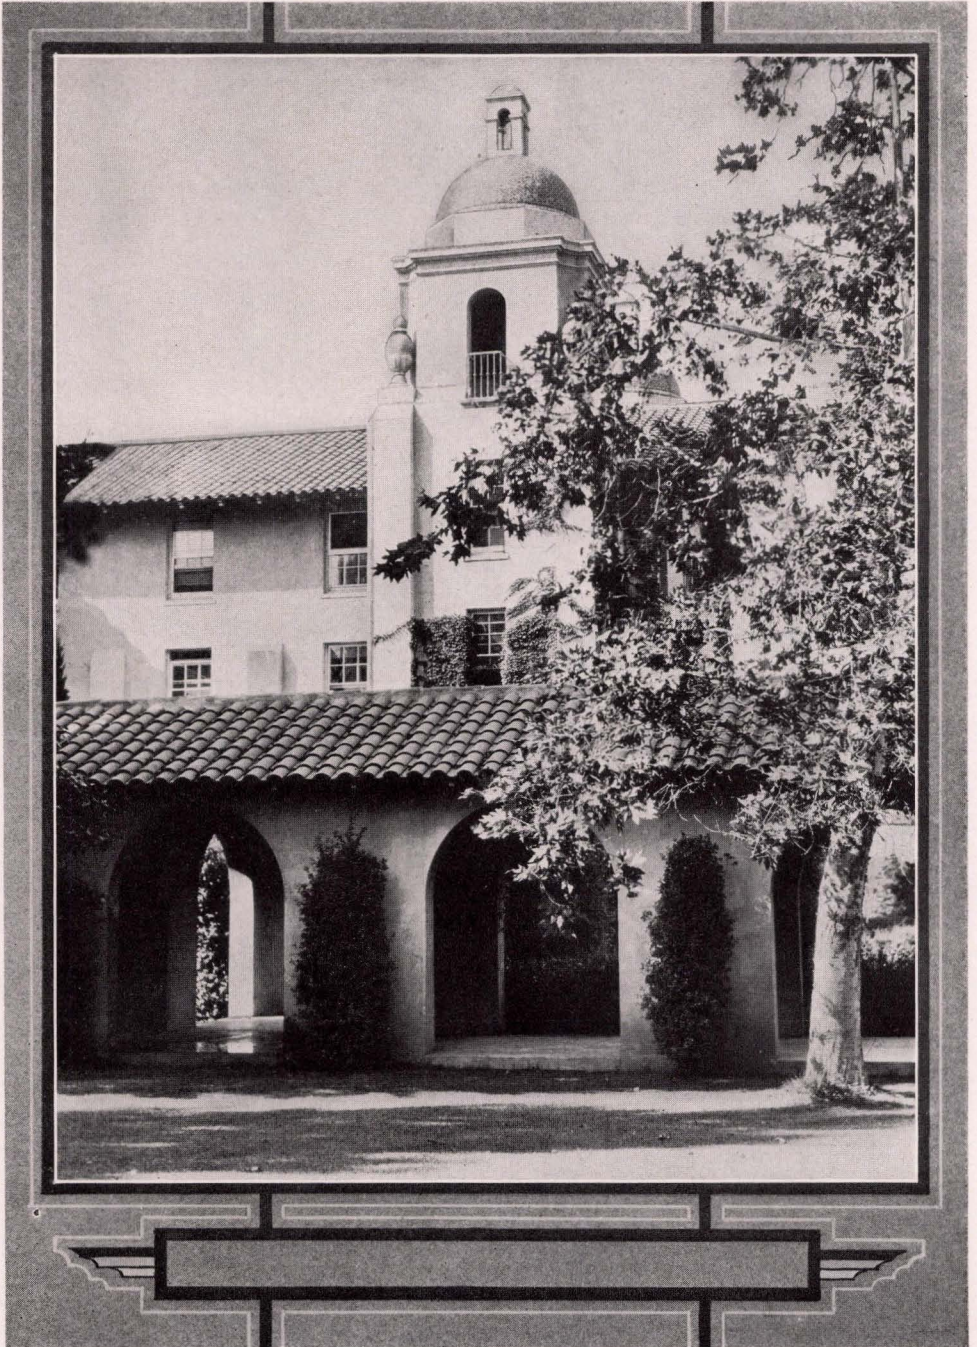

In all this you have been in part vitally concerned and as the activities of the past are reviewed, may you not become more interested and dedicate your efforts to the spirit of achievements for the future! In support of this view and in conclusion you have reason to be proud of your Alma Mater's attainments, with her splendid Alumni Association steadily growing in strength; well organized departments; good student body and well qualified faculty, all united in the common cause of dental education building for university connection.

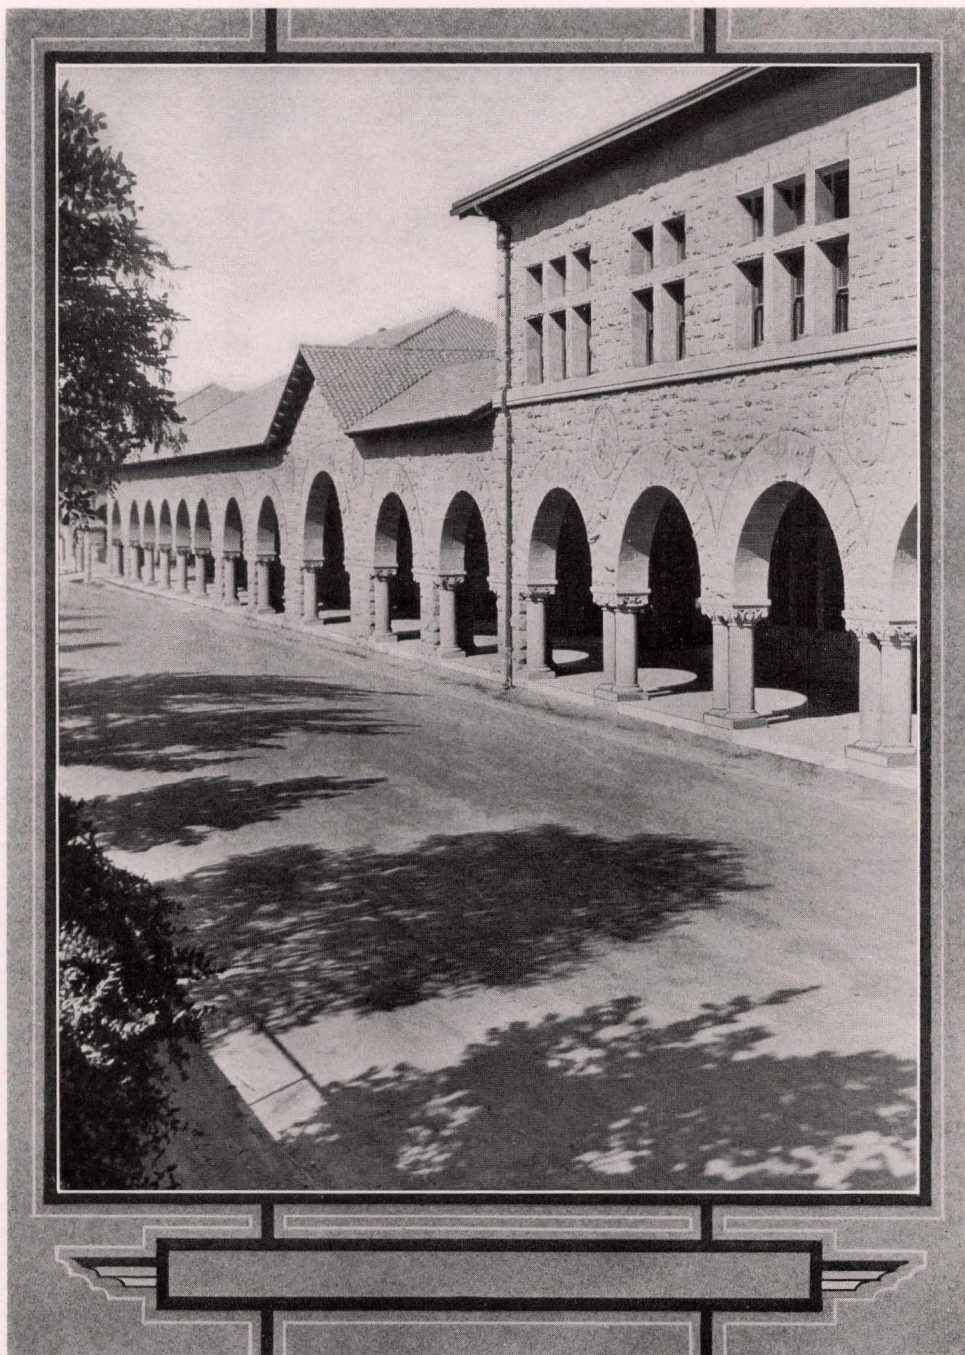

Isn't this an interesting picture? Does not the spirit of constructive effort appeal to you? Are you not animated with a resolve to unite with others who believe in the words of Oliver Wendell Holmes?

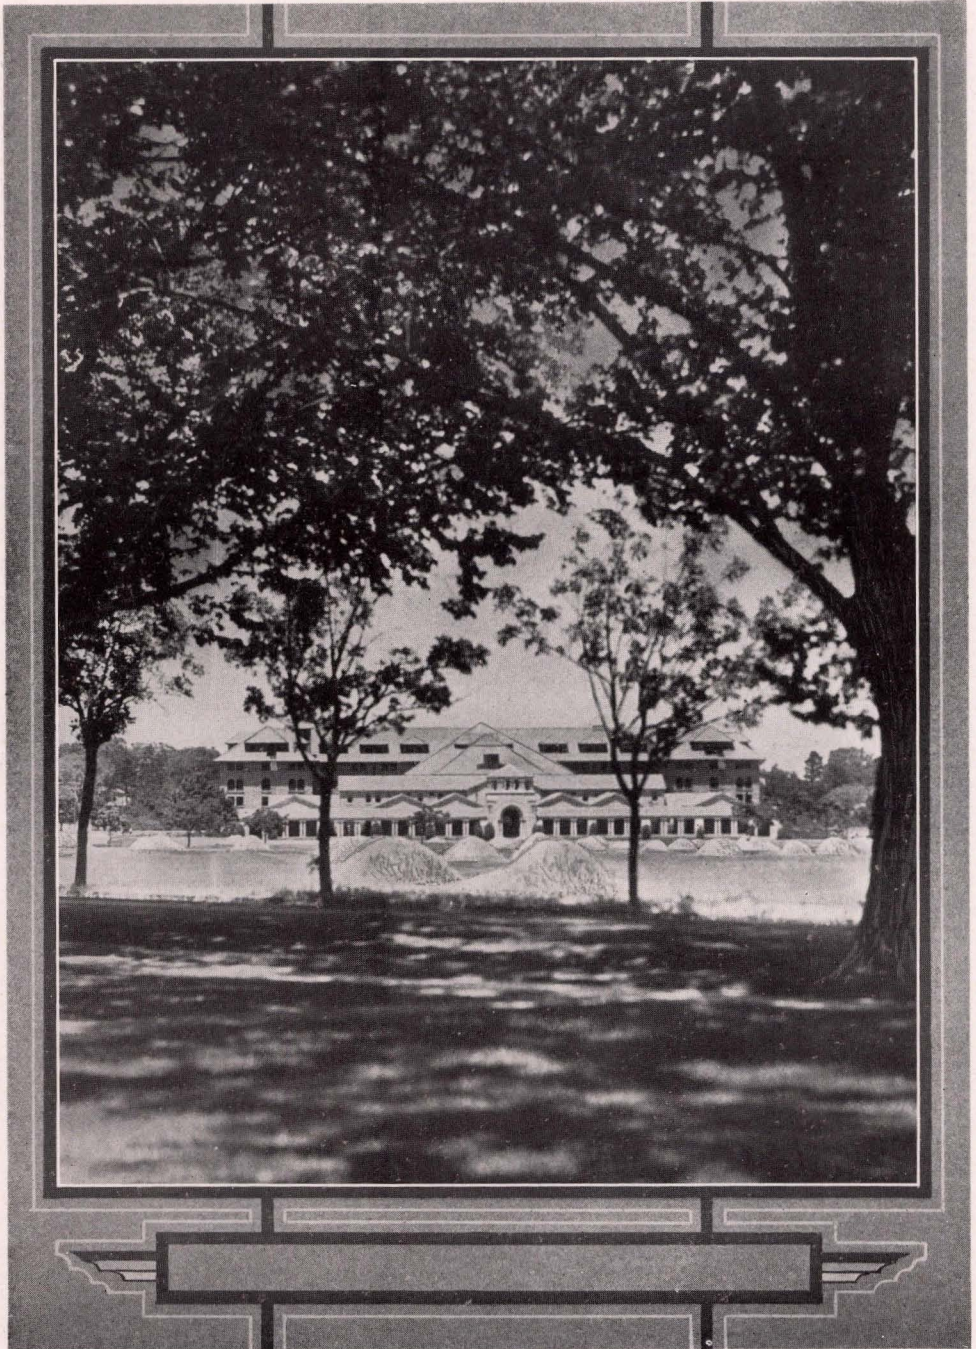

"Build thee more stately mansions, O my soul,
As the swift seasons roll!
Leave the low-vaulted past;
Let each new temple, nobler than the last,
Shut thee from heaven with a dome more vast,
Till thou at length art free,
Leaving thine outgrown shell by life's unresting sea."

ADMINISTRATION ASSISTANTS

No copy of CHIPS would be complete without pausing for a moment to present that small but efficient group of assistants to the administration. In the central office there are three: Mrs. Albright, secretary to the Dean; Mrs. Houghton, secretary to the Superintendent; and Miss Schengel who spends her time in both the store and the office. Between these three the students never fail to receive their bills, report cards and what have you.

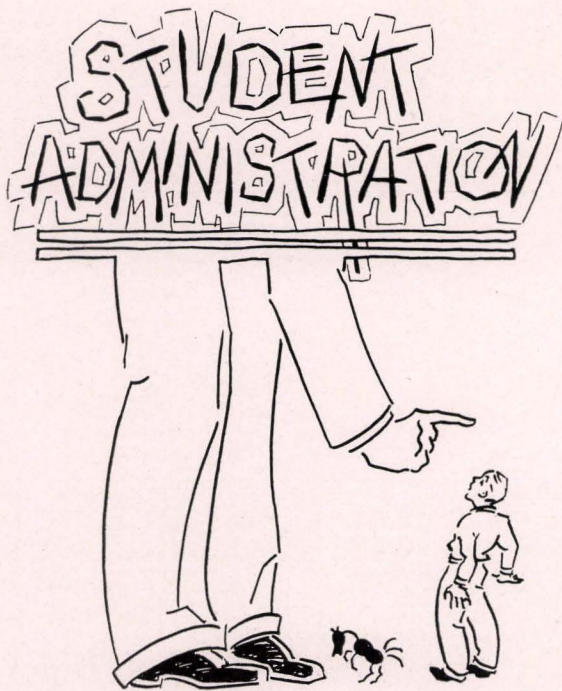

Probably the most familiar voice around P. & S. is that of Mrs. Lloyd and her famous, "This is Hemlock 2822." Mrs. Lloyd also keeps the students well supplied in equipment, having charge of the school store.

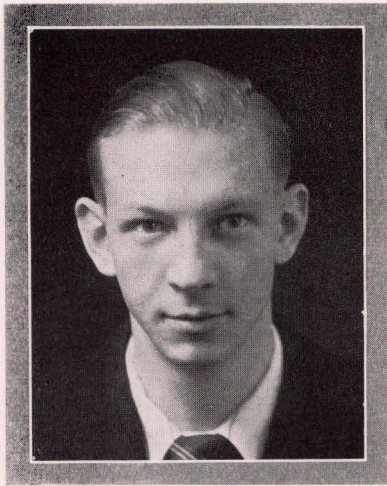

On the second floor Mrs. Matthews has charge of the clinical X-Rays. Mrs. Burt has two positions, one as nurse in the Oral Surgery, the other of secretary in the Orthodontia Clinic.

In the infirmary we have two who are probably not very well known to the lower classmen. Mrs. Maurer handles the patients accounts and Mrs. Hoffman keeps the record sheets of the students' work, at the same time keeping us all looking neat in clean gowns. It is she who takes the "green" Juniors under her motherly care and sees them through the first trying months of Infirmary practice. Both being camera shy, we were unable to procure a picture for CHIPS.

On behalf of the Student Body, CHIPS wishes to thank you all for your part in making this year as pleasant as it has been, and we hope that you have enjoyed working with us as much as we have with you.

Student Body Meetings

At the monthly meetings of the Associated Students, the following speakers addressed the assembly:

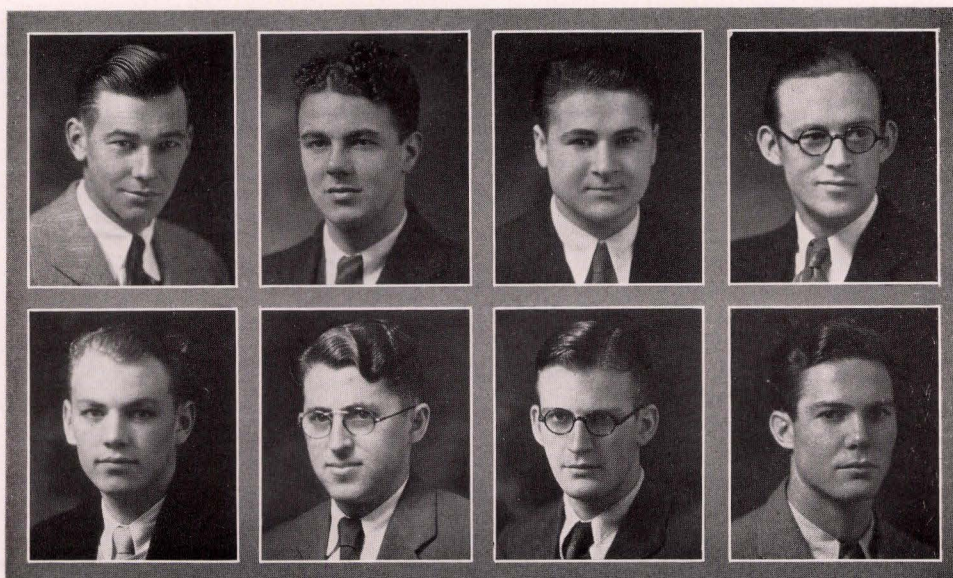

Dr. Maurice Korshet gave a talk on "Endocrinology in Relation to Human Development." Dr. Edward Cureton, '00, and Dr. Leland R. Packwood, '07, presented an illustrated "Travelogue of Their European Trip." Mr. Beckman, Business Engineer, gave a very interesting talk on the "Business Side of Dentistry."

The social functions during the year 1930-31 consisted of the Freshman Reception, and Senior Farewell dances, the latter a formal, beside several fraternity dances and banquets.

Athletics included basketball, golf, and the annual Field Day in March which each year is proving a greater success than the last.

THE CLASSES

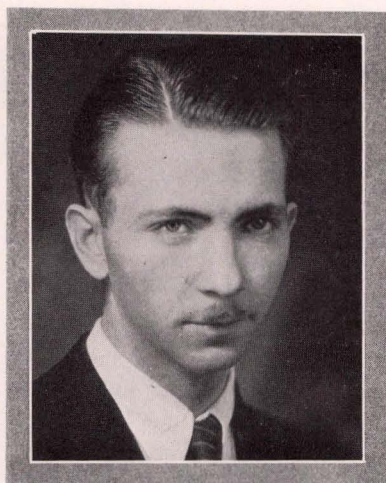

SENIOR CLASS

CLASS HISTORY

By A. R. GOODWIN

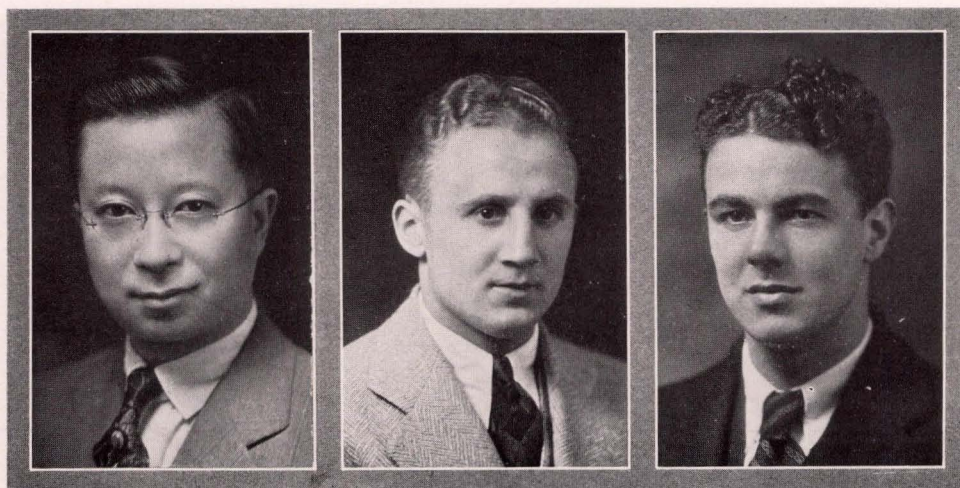

WESLEY W. ANDERSON
President

IT was in September 1926 that the first page in the history of the class of 1931 was written in the annals of P. & S. On that day sixty-five green but willing students were given the honor of becoming members of the first five year class to enter the college. Our first activity as a unit occurred not long after, in the form of a "welcome" given by the Sophomore class of which every member was a personal reception committee. Later we were given a scheduled reception by the Senior Class. Field day found the class

taking an active part in all the events, and the year closed with a Senior Farewell dance given by the class.

In our Freshman year we abolished the old time initiation, the dread of every newcomer in former years. In its stead we inaugurated the annual boat ride held jointly by the two lower classes. This year also found the revival of the Dramatic Club mainly through the efforts of our class.

K. C. WONG
Secretary

A. L. MOLINARI
Treasurer

P. V. MERLE, JR.
Representative

SENIOR CLASS

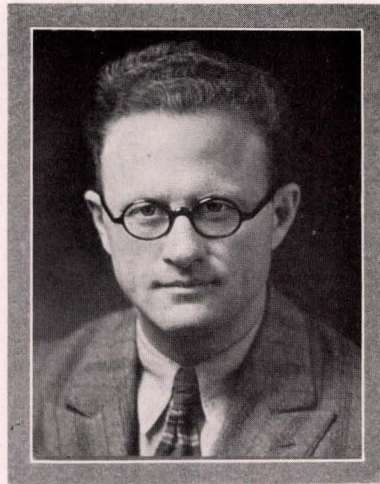

THE Sophomore year marked the advent into dental work after two years of preparation. At last we were taught the intricacies of inlay, crown and bridge, denture and gold foil work. At this time our number had been reduced to forty-five.

Upon entering the Junior year we were ushered into the clinic to try our recently acquired skill upon unsuspecting patients, but as in former years we lived through the ordeal as well as our patients.

The Senior year arrived and found thirty-three of the original sixty-five still clinging to the ship. Gone was that carefree attitude of lower classmen and in its place a seriousness of purpose acquired by all students when they reach that goal of all lower classmen, Seniors.

And now as we draw to the end of our life at college and the last chapter has been written in our history as a class at P. & S., we feel beneath the joy of graduation, a deep regret at having to leave behind the friendships that have been formed during these five trying yet glorious years.

To our faculty, who have never failed to give us the help we needed, may we at this time express our appreciation for their interest in aiding us in reaching our coveted goal.

WILLIAM F. SAYLES
Vice-President

WESLEY WIRT ANDERSON
Oakland, Calif.

"Wes"

"Andy"

"Just a minute fellows", it is thus that Andy called the class together on many occasions during the past year, as its prexy. Wes hails from Oakland where he attended Fremont Hi. A quiet fellow, but when he has something to say it is well worth listening to. A reserve, coupled with clear thinking, has contributed greatly to his success while with us. Modest and determined at all times, with characteristics that are conducive to success we expect to see him gather no small rewards in the years to come

Class President, 1931
Dramatics, 1928-29-30

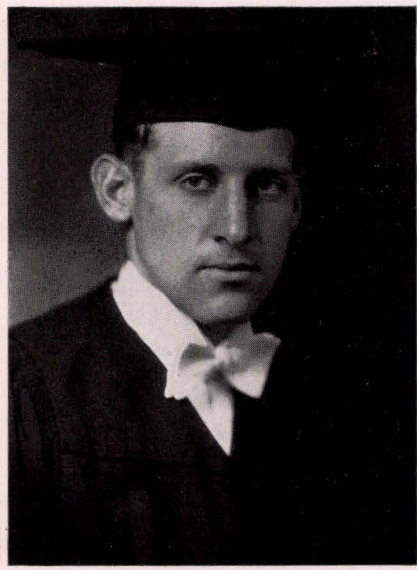

WALLACE NUTTING BACHELDER
San Francisco, Calif.

"Bach"

Bach has been a member of '31 for the last two years. Originally starting with the class of '26, he took a leave of absence for several years and joined us at the start of the Junior Year. Possessed with a mop of curly hair, the envy of all the fair sex, Bach is oblivious of everything but his main object at college, getting through.

Being naturally quiet one does not get acquainted with him in a short time, but once acquainted he is invariably liked.

Student Body
Sergeant-at-Arms
1931

JOHN CHARLES BASCOM

Mt. Shasta, Calif.

"Charlie"

"Shasty"

Charlie hails from the snow clad city of Mt. Shasta. However, in the five years at college he has become thoroughly citified and expects to go back to Shasty and show the natives some real city ways. You can't help but feel that Charlie will get along any place where there are people. True optimism and many friends go hand in hand, and Charlie by his undaunted cheerfulness, has won himself a host of them. Wherever we meet Charlie, in ten years, or twenty, it will be with a rush of gladness.

Class President, 1930
Student Body Assistant Treasurer, 1931

LYALL OLIVET BISHOP

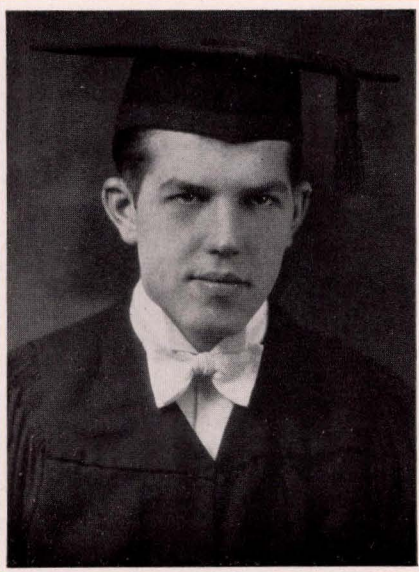

Berkeley, Calif.

"Little Bish"

Little Bish, the youngest of the brother team of Bishop and Bishop is by no means a midget as his nickname would imply. It was merely given him to distinguish him from his taller brother who stands about 6 foot 3.

Lyall has more than his share of good heartedness. You could borrow his last nickel, take his last stamp and he would make you feel as though you were doing him a favor. Wherever he goes one will always find him a true pal and friend.

CARL MARVIN CAMP
Stockton, Calif.
"Carl"

Carl hails from Stockton and will in all probability return there to hang out his shingle. Always ready to join in any kind of horseplay, he never-the-less will stand for none directed at him that is not of a truly sporting nature.

Never creating unusual attention in his lower years, Carl has pegged away in his own quiet manner, and is now recognized as one of the outstanding men in the infirmary.

And so we have our man portrayed, except that one of the biggest things in his life has been omitted—sleep, beautiful sleep.

Delta Sigma Delta
Dramatics, 1928-29-30

HAROLD CHARLES CHARYN

San Francisco, Calif.

"Hal"

Climbing mountains is not the kind of life that would develop a weakling. Hal must have spent most of his spare time as a kid at just that sort of thing, and it has certainly brought results. Always active in athletics, he has been responsible for many a victory for the basketball team.

One must not suppose that it is all brawn and no brains. Hal has never experienced any difficulties in obtaining the necessary grades. Strong, good-natured, he is easy to get along with, because he rarely gets angry.

Alpha Omega
Dramatics, 1928
Basketball, 1928-29-30

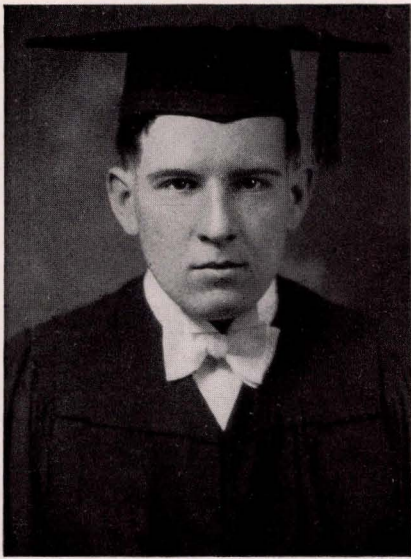

TAKEO N. CHIBA

Ogden, Utah

"Sheba"

Takeo came to us after spending the first half of his career at U. S. C., but it was not long before he had won his way into all our hearts. Willing at all times to help others there is not one in the class who would not jump at the opportunity to lend him a helping hand.

As this book goes to press we learn with deepest sorrow that illness has forced him to take a leave of absence for a year, but we are proud to be able to place his picture among our class to which he rightfully belongs. We all extend best wishes for a speedy recovery and continuance of school next year.

HAROLD EDWARD CLEGG

Stockton, Calif.

"Hal."

"Red"

Red is another native of Stockton and he must have spent a good many hours in the sun to have acquired his abundant supply of fiery hair.

Hal achieved early fame as the second member of the sister team of Cox and Clegg, but was less fortunate, in that his masculine foot was too large to fit into any feminine footwear.

Aside from his ability to act his greatest achievement was to be able to speak German with an Irish accent.

Citizens of Stockton can certainly be proud of this "coming" dentist.

CHESTER WILLIAM CUSICK
Fairfield, Calif.
"Chet" *"Red"*

The boy who put Fairfield on the map! A winning smile, a captivating personality, and a genial good nature, all mixed together tend to make Chet one of the most interesting, entertaining and likeable chaps ever.

We bet that folks in Fairfield are planning a big home-coming for their "son".

On the morning of graduation, when the thoughts enter our minds that have entered the minds of so many graduates, "Today we launch, when shall we anchor?" we hope to find Chet anchored some place where we can continue to enjoy his congenial company.

Xi Psi Phi
Dramatics, 1928-29-30

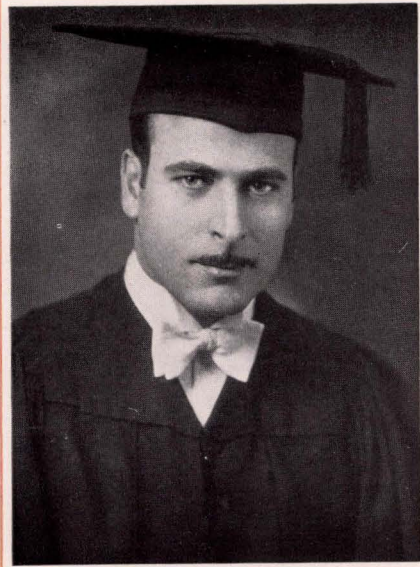

MEYER DIAMOND
Oakland, Calif.

"Mike"

Whenever one thinks of Mike he cannot help but recollect that day in our Pre-Dental year when the Sophs proved their superiority over our class. During the melee Mike was shorn of his finely trimmed and handsome mustache, but like the determined chap that he is, he promptly grew another.

Always a serious minded hard worker, we can see naught but success for Mike. He is generous, true to his word, fearless, a good pal, a good sport and a good student.

Alpha Omega
Class Vice-President, 1929
Class Historian, 1930

IGNATIUS GATTUCHIO
San Jose, Calif.

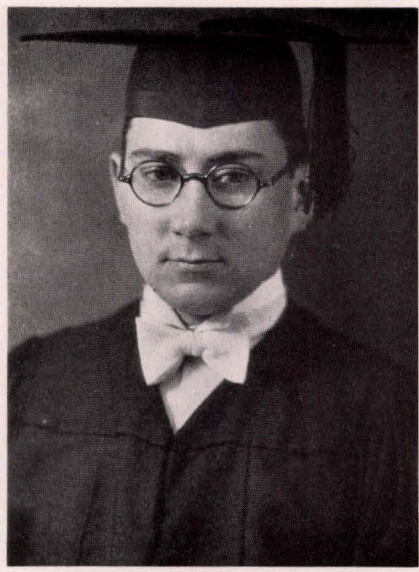

"Joe"

"Wop"

At times one finds it hard to say large things about small quantities, but here is one small person that you could write a book about. Hailing from a family of professional men, one a physician, the other a dentist, Joe is bound to outshine them both.

Joe has that rare ability to carve fillings, giving them that added touch that makes them more than just a filling, but a true restoration.

A nervous, exciteable chap, his attempts at oral recitations have furnished the class no small amount of amusement, but we'll wager that the day will come when Gattuch will be one of the leading dentists of San Jose.

VICTOR EDWARD GOLDMAN

San Francisco, Calif.

"Vic"

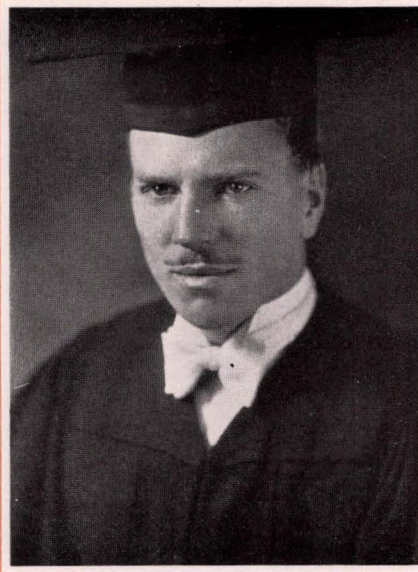

"Goldy"

Vic came to P. & S. in the fall of '28 and for some time remained an unknown quantity. However, as we know, if given time a man's worth will make itself known. More or less inclined to remain in the background in class activities his work has come to the fore.

That he will be able to "sell" dentistry we are certain. He has spent his spare time while at college behind the counter in a haberdashery, and while there is a difference in the product for sale, the ability to sell the latter will certainly give him that added advantage of knowing how to sell when it comes to dentistry.

In his three years with us he has exhibited a vivid example of a hard working man capable of overcoming the most trying obstacles, and we are sure that these qualities will forever stick with him.

Alpha Omega

ARTHUR RAYMOND GOODWIN

San Francisco, Calif.

"Art"

After studying to be an artist in High School, Art went out and got a job collecting bad accounts. Failing to extract money from the latter, he decided to try his hand at dentistry.

We think his choice a wise one because he has proven himself one of the outstanding men in the class in both technical and practical work.

Always taking an active part in school activities he has climaxed his school career as Editor of CHIPS.

May his future hold in store the same success achieved here at college.

ERNEST FRANK INSKIPP
San Francisco, Calif.

"Skippy"

"Bli-me! of course I'm a Limey, hail from good ole Lunnon." Yes, no one could mistake Frank for anything else but British, from the ever present flower in his lapel to the missing "H" in his speech. We have made fun of Frank's English ways but we have not changed them. For he is what he is and is proud of it. We have as much confidence in him as he has in himself. He has a way of accomplishing things; a task must be done and he does it. There is no needless growling in Frank, he take things as they come.

NIELS KOLDINGER
San Francisco, Calif.
"Swede"

Surely no greater acknowledgement of a man's ability or popularity can be shown than that bestowed upon Niels by his fellow classmates. Elected to the highest post in the college, that of Student Body President, by an overwhelming majority, Niels has more than upheld the trust.

Marked cheerfulness, and that helping spirit were the secrets of his popularity. By those who became his friends, he was appreciated as one more generous than the ordinary man. Rest assured that Swede will lead in his profession just as he has in college.

ALFRED T. LOCKWOOD, JR.
Fresno, Calif.
"Al." "A. T. Jr."

Doesn't he look blase? Who wouldn't with a career as long and varied as Al's.? Born in Fresno, he has been farmer, oil-man, sailor, and now a professional man.

Possessed of an easy and adaptable manner, he is everybody's friend. That subtle humor which seldom turns to sarcasm, because of his underlying good humor is his constant expression and it is most effective.

Al's desires range anywhere from a successful practice in Fresno, to a million dollars, with an Apartment in the city, a country place and a seaside cottage. The first is easy and we are willing to bet that his ability and personality will bring the rest.

ALLEN RICHARD MARSAN
Oakland, Calif.
"Al"

"Say, where do you get that stuff!" All wrong, now . . ." Al can argue a mighty oak into a quivering twig. Given a little time, Al is destined to become one of the greatest lawyers the dental profession has ever known, if he so desires.

An out and out radical, he is a good subject for Russia right now. Al is a confirmed student; he knows and is willing to divulge his knowledge. He is a true friend of those who know not, and know that they know not.

Clear logic, an admirable ambition, a cool demeanor, and a high sense of humor, are the rungs on Al's ladder of success. May he reach the top.

Xi Psi Phi

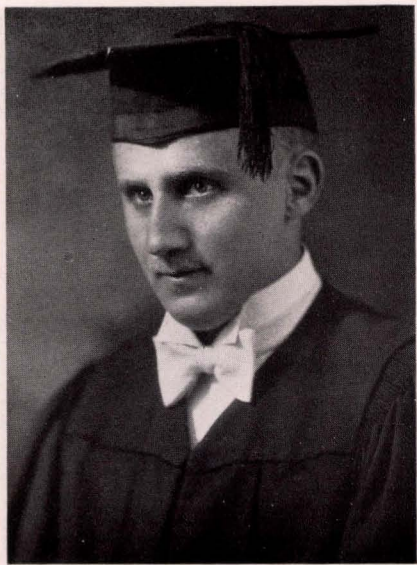

PIERRE VASSEROT MERLE, JR.
San Francisco, Calif.
"Pete"

Although his name would imply that he is a member of that race of people known to be extremely temperamental, there is nothing to indicate it in Pete. His most promising trait is his delightful stolidity; he takes things as they come with a genuine complaisance. However, he possesses an unlimited supply of good humor.

Liked by all, he has the makings of an efficient dentist and will be a credit to the profession.

ANDREW LOUIS MOLINARI
San Francisco, Calif.
"Wop" "Andy" "Molly"

Andy spent his Freshman year at U. C. so was well prepared for the harried existence at P. & S. An ardent admirer of Mussolini, he took a trip to Italy during the summer to pay his respects and incidentally try to sell some bum stock.

Molly, another star on the basketball court is a streak of lightning and has been in a large measure responsible for our string of victories over his former Alma Mater.

All in all the little man from North Beach has an enviable record and we can safely prophesy that he will have a successful career.

Psi Omega
Basketball, 1928-29-30
Class Treasurer, 1931

WARD McCLELLAND MORTELL
Dunsmuir, Calif.
"Wardie"

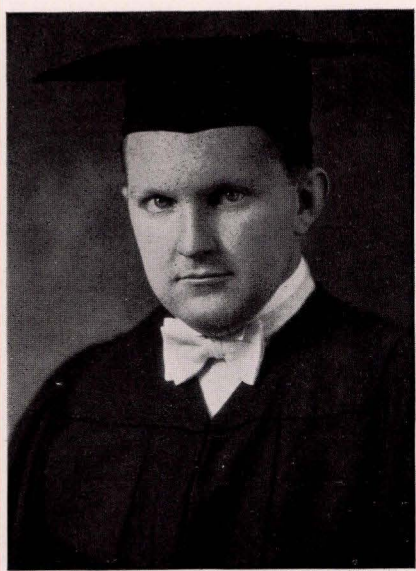

It must be rather discouraging to nurse a perfectly good mustache through those trying periods of first growth, and just as it gets to the stage of recognition, have your boss inform you that it must come off. That was Ward's fate.

All during his college days, Ward has impressed others by the neat and efficient way he has done everything.

His technic pieces have been models for everyone else in neatness.

When it comes to cheerfulness combined with a big heart, that's him. Having had more than his share of fun poked at him, he has always taken it sportingly. A bigger-hearted and better natured fellow is hard to find. With these qualifications he is bound to succeed.

Psi Omega

WILBUR LEE PARKER
San Francisco, Calif.
"Bill"

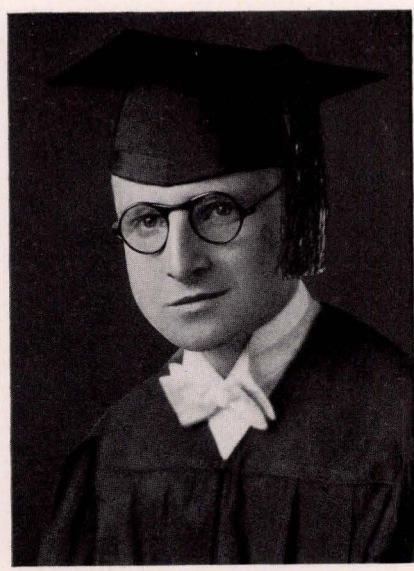

Hear that racket? That's Parker's laugh, the most famous in P. & S. His sense of humor is irrepressible. He can find something to laugh at when the rest of us are griping.

Bill is a man of super-endurance, but then, no more than you would expect of one of such proportions.

Bill has been a pleasant companion and we know that he will go out into the profession with the same go-getting attitude he has had here.

May we be forever friends, old man!

Psi Omega
Class Representative, 1927-28
Chairman Dance Committee, 1927-31
Baseball, 1930

JEROME JAHN PAVLIGER
Oakland, Calif.
"Duke"

A comprehensive character sketch to fit the determined physiognomy depicted above is indeed difficult to make. This is a man of many moods.

Duke is really known by few, but those few will vouch that in all the class there is not a harder or more conscientious worker.

When the last inning of life is over and his wins and losses, his strikeouts, hits and errors have been totaled, figures will show that he has produced in the pinches and through it all a man and a friend.

Success is often far off, and should fate throw him for a loss, no matter what the score may be, we know there will be that same old fight that makes men come from behind.

EARL EDMOND RHOADS
Hanford, Calif.

"Pop"

"Dad"

Earl came to us with the sound of the threshing machine still singing in his ears. His easy going manner and seniority in years quickly won him his nickname of Dad, and that is what he has been to all of us.

His greatest hobby while at college has been denture work and he is forever practising upon himself, being blessed (?) with that particular advantage over the rest of us.

Always obliging, Earl will make good because of his quiet and unassuming yet forceful personality which will make for him many friends, and cause him to be truly admired.

Psi Omega
Class Sergeant-at-Arms, 1927
Dramatics, 1929-30

HERBERT RAYMOND ROSEN
San Francisco, Calif.

"Herb"

Herb joined '31 in his Junior year and since then has been plugging away in his own way molesting no one.

He is a quiet chap who never forces his opinions on anyone. Unselfish and willing at all times to help in anything, he will always be remembered by all who ever knew him.

He will make many friends wherever he roams; and he will make a success of his chosen career.

In future years when we return to alumni meetings we expect to find Herb there because we think him the type of fellow that feels that though he has his diploma there is plenty more to be learned and the place to learn it is back at P. & S.

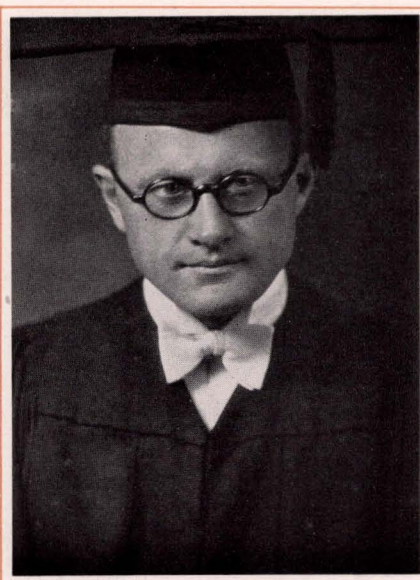

LINDEN ARNOLD RUSHMER
Oakland, Calif.
"Rush"

Someone has said that the smaller the man the more noise he makes. Linden disproves this theory, for he is an out and out exception, even though we have heard him in some rather heated arguments.

His specialty is porcelain work, having devised a system for selecting shades all of his own. His 1902 model porcelain furnace has certainly turned out some beautiful work.

He is forever at work plugging along determined to reach that goal for which we are all striving. Rush is the type that we would except to see in research work in later years.

Class Athletic Manager, 1929

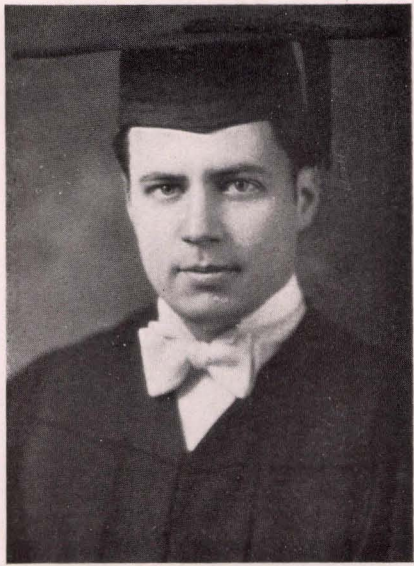

WILLIAM FRANK SAYLES
San Francisco, Calif.
"Bill"

Here is a very conscientious young man. Witness his hard studying in college in spite of the fact that he had to work night and day.

He has worked hard for what he has attained, and what he has learned he knows, and we dare say in the years to come much of that knowledge will be put to use by him when most of us have forgotten there ever were such things.

The future can hold naught but success for Bill. We wish him all the success he deserves, and that is saying a great deal.

B. Sc., 1930
Xi Psi Phi
Class Vice-President, 1931

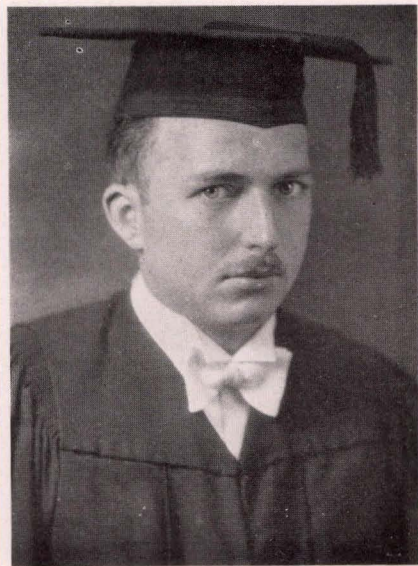

JAMES WARREN SCOTT
Oakland, Calif.
"Scotty"

Scotty was one of those fellows that never seemed to be getting anywhere but when the reports would come out at the end of the year he was always up near the top.

Upon entering the clinic, the effort of standing on his feet was too much for the feet, and they gave way. However, Scotty is able to hobble around and with the aid of rubber mats manages to stand at the chair. A good rest after graduation will set him up in fine shape.

Rather an ornery cuss, he is really known by few, but those few seem to like him, so there must be something behind that outer coating.

Psi Omega
Dramatics, 1929

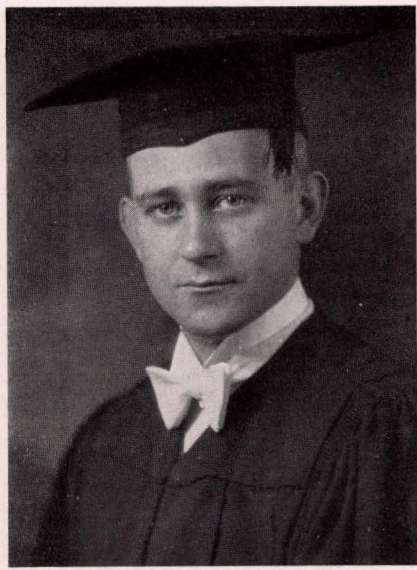

THOMAS SORENSEN
Fresno, Calif.
"Swede" "Tommy"

It takes five minutes to become a fast friend of Tom's. Then if you are both brave and careless you call him Swede. Hailing from Fresno, following in the steps of other "greats" from the valley, Tommy entered P. & S. determined to add another Sorensen to the list of "Chirurgien Dentistes."

Tommy was once tempted to study, which action naturally upset the instructors; but a notion of that kind seldom lasted long and Tommy would fall back to "Well, no studying tonight."

In spite of this, Tom is the kind to make the profession and his class proud of him.

Delta Sigma Delta
Dramatics, 1928-29-30

RICHARD FRANCIS STULTZ

San Francisco, Calif.

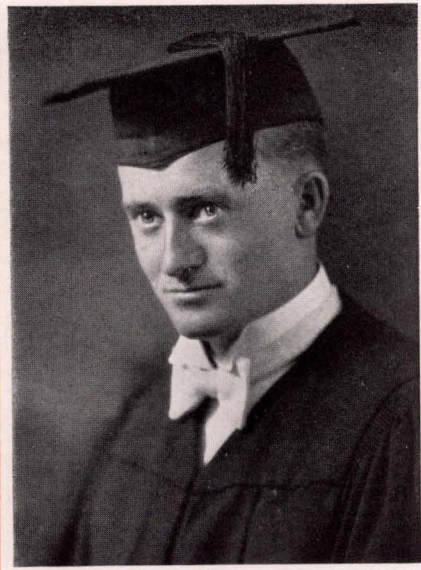

"Prince"

"Dick"

"Get out of here, what are you trying to get away with?" Then you know it's the Prince on the warpath and its time to stay away. Although usually of a peaceful disposition, he will run amuck at times.

Dick and theory ran a close race for five years. First one slightly in the lead and then the other. But perseverance as usual won out and Dick is graduating forgetting all his hardships. There's one thing that has never been explained, and that is his failure to give us the low down on Dr. Gill's Honor Roll. We can't call every turn can we Dick?

Psi Omega

COURTICE SWALLOW

San Francisco, Calif.

"Curt"

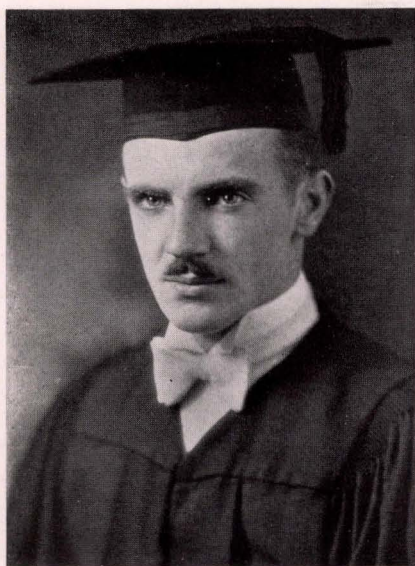

Curt is of Canadian birth and our Northern neighbors have done us a favor in sending him down here. Fast as a streak he excels on the ice, being an ice hockey player of no mean ability. He grasps all things by putting in the hard work that most of us lack.

Curt is easy to get along with; but just because you get along with him is no sign you know him. Far from it, for it takes a long time to know him thoroughly. So remember this when you meet him. You will very soon learn to like him, and it will be worth while to try to know him.

Xi Psi Phi

Dramatics, 1929-30

Class Treasurer, 1929

GORDON LEE TAMBLING
Piedmont, Calif.

"Gord"

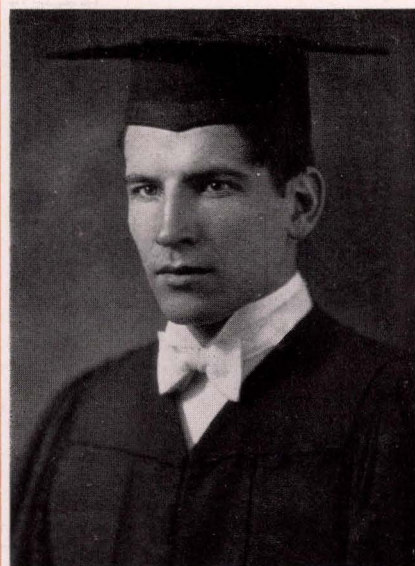

"Tam"

Gord from over Piedmont way having decided to follow in the footsteps of his dad entered P. & S. Quiet and unassuming, Tam is the kind of fellow one has to know to understand, but once the barrier is broken, no finer fellow or truer friend exists.

As observed by one who feels he knows him Gord measures up to the man's standards. He has a gift of reticence combined with an amiable disposition, and though not famed for his wit and repartee, his sense of humor is far from dormant.

A real man rarely fails to beget loyalty or to give it—and success is eminent.

Psi Omega
Dramatics, 1929

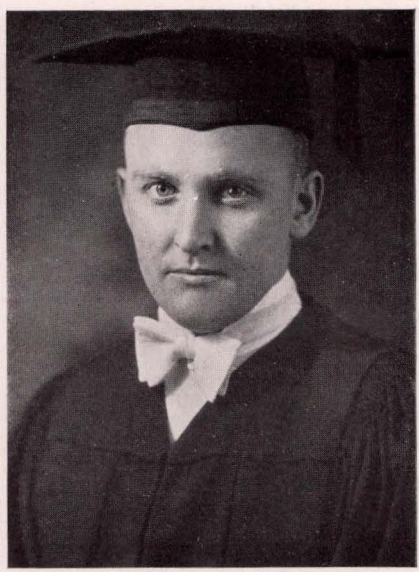

RUSSEL MARTIN WAGNER
San Francisco, Calif.

"Russ"

Here is a fellow that is hard to figure out. Russ goes around college for four years in a very quiet manner and then in his fifth year bursts forth in a series of fantastic jigs and war whoops. There seems to be only one answer, he must be in love.

Russ has made many friends while at college and we are sure he will continue to do the same after he finishes, which is a fair way of measuring a life of success in dentistry.

Tau Kappa Omega

HAROLD CLAYTON WILKINSON
Westwood, Calif.

"Shylock"

This tall fellow, with his easy movements and sly ways immediately gives himself away on first acquaintance.

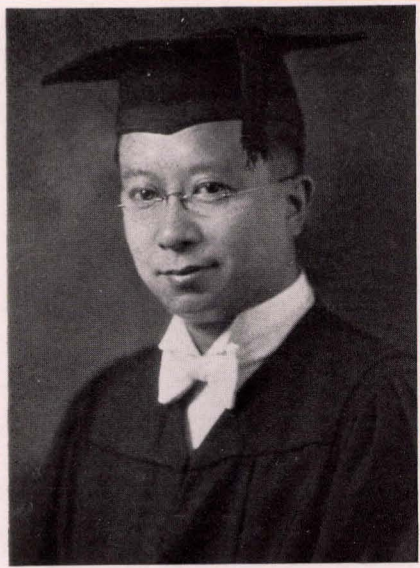

Christened by his class, Shylock, instead of receiving a pound of flesh, he gives away a can of Corega with every denture.

About once in every generation the creative genius of some previously unused mind produces some article or achievement, undreamed of before and incomprehensible since. Such is Shylock. In spite of it he is our true friend.

It must be rather hard for a place the size of Westwood to give up one of its leading citizens for five years, but it surely will be repaid in future years.

If he is ever able to make his dentures stick, we predict a bright future for him.

B. Sc., 1930

KIM C. WONG
San Francisco, Calif.

"Casey" "Kimbo"

Kim already holds a diploma and degree from the University of California, but that did not stop him from going after another one. In fact he was so keen for more knowledge that he took the Pre-Dental year when he could have passed it up.

Aside from shining in theory his greatest ability is that of sitting around a card table and giving any and all who dare to sit in with him a lesson in the art of "filling his hand."

If the time ever comes when Kim ceases to worry about his work or the Stock Market we would like to see what he looks like.

Tau Kappa Omega
Student Body Secretary, 1931
Class Secretary, 1931

ROBERT FRANCIS YORE
Oakland, Calif.

"Bobby" "Yu"

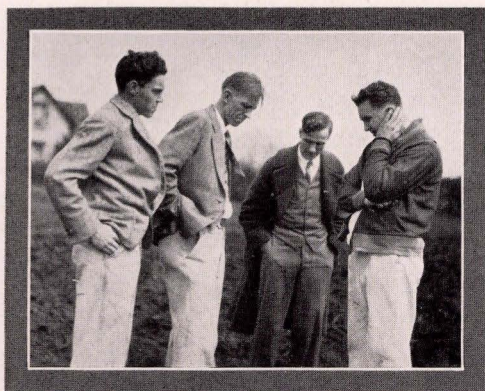

Bobby hails from Oakland and his entrance into our midst was not startling, but his continual plugging along in his own quiet way has made him an outstanding man in the class.

In athletics he has also shown aptness, playing and serving as Varsity Basketball coach.

Small of stature but big of heart, his cheerfulness and keen sense of humor added greatly to his popularity.

His future is beyond our prediction. As a dentist he will be one of the best; as a friend he is supreme.

Senior Class Will

By ART GOODWIN and ED HAAS

WE, the members of the Class of '31, being of sound body and mind and acting under no undue influence or duress, do hereby give, tender, present and bequeath the following, to-wit:

I, Wesley Anderson, do hereby bequeath to the incoming president of the Senior Class, my complete library on Parliamentary Law.

I, Wallace Bachelder, leave to all future bald-headed students my mop of curly black hair, with the provision that it is kept out of engine belts.

I, Charlie Bascom, about to leave for the great metropolis of "Shasty," do hereby leave to Ben Reinke all the pits in my gold foil restorations.

I, Royce Bishop, about to leave my alma mater, advise that all those requesting knowledge do your sleeping at home.

I, Lyall Bishop, being in a state of frenzy and feeling that the end is near, give to Fahden my position as Chief Operating Orderly.

I, Carl Camp, being of sound mind and body, do bequeath my old gold, engine, supplies and instruments to Wheeler, provided he attains the masterful position of senior student.

I, Hal Charyn, ever ready to help those in need, do hereby request all my patients seeking replacements see Leo Dobbins.

I, Harold Clegg, about to leave this world, give and bequeath to Olee Johnson all my female patients and phone numbers, trusting that he shall be a better man than I was, Gunga Din.

I, Lloyd Cox, being of normal mind and feeling the end near, will to young Horn my Maybreath supply and chewing tobacco.

I, Martin Curley, hereby leave to all those seeking Bachelor degrees, valuable information on how to raise cats, and do dentistry on same.

I, Chester Cusick, after five years of fruitless searching, leave to Scoop Carlsen sole authority to continue search for my missing laterals.

I, Meyer Diamond, being sound of body and mind make this my last wish, that my brother Morris have the pleasure of my infirmary practice together with my foil patients.

I, Joe Gattuchio, before departing, wishing to be remembered to my colleagues, will to the student body my book on "How to Get Rich Quick."

I, Vic Goldman, leave my various sales talks to my "buddy," Glaiberman.

I, Arthur Goodwin, being sound of body and mind, will and bequeath to the incoming editor of *Chips* all the grief and glory of the publication.

I, Ed Haas, leave my ability at apple-polishing to my pal, Thodas.

I, Frank Inskipp, being of foreign birth and weak mentality, do leave my one-track mind and self-loving thoughts to my friend, "Rubber-nose" Buschke.

I, Niels Koldinger, about to step down from the office of Student Body President, leave to the college library my correspondence course in Public Speaking.

Senior Class Will

I, Al Lockwood, about to depart, leave to Borello my good old S. A.

I, Al Marsan, being of sound body and weak mind, leave my books on salesmanship to Don Miller.

I, Pete Merle, being of normal mentality, leave to Helfrich my old Ford, clinic chair, and address book, trusting that he do right by our Annie.

I, Andy Molinari, going nowhere in particular, appoint Jimmie Gay to tell bedtime stories to all my child patients.

I, Ward Mortell, being normal of mind, bequeath to Junior Haun my ability as the greatest name receiver and dictator.

I, Wilbur Parker, before taking leave, do hereby will to Dr. Jack Werner all my horse laughs that he may be well supplied with material for lectures.

I, Duke Pavliger, bequeath to Hollis Snell all my satisfied patients.

I, Dad Rhoads, leave to the Freshman class my old plates for technic work.

I, Herb Rosen, bequeath to all my pals my book on "Personality Plus."

I, Linden Rushmer, having reached the end of my rope, do hereby bequeath to M. J. Smith my 1902 model porcelain furnace.

I, Bill Sayles, being sound of body and blurred of vision, do leave to all ambitious operators my "Hawk-nose" glasses.

I, Warren Scott, being fleet of foot, will to Wingfoot Wilson my corn pads, callos heels, and foot powders, trusting that his speed shall be great.

I, Tommy Sorensen, bane abute to lave gudd ole Pay and S, do lave all my synthetic patients to my fellow Swedes in the Junior class.

I, Dick Stultz, being of religious nature and skeptical mind, will and bequeath to my friend Allen the "gaboon" resting uneasily on my clinic chair.

I, Curt Swallow, being of sound body and pure soul, will to Don Miller my extra supply of dentures, hoping he finds patients to fit the plates.

I, Gord Tambling, feeling that the end is not far away, will to "Phat" Mancuso my list of drugs that prove to be positive for sea-sickness.

I, Russell Wagner, hoping to attain better things in life, leave to Pop Ballard my dancing shoes and card for one month's lessons.

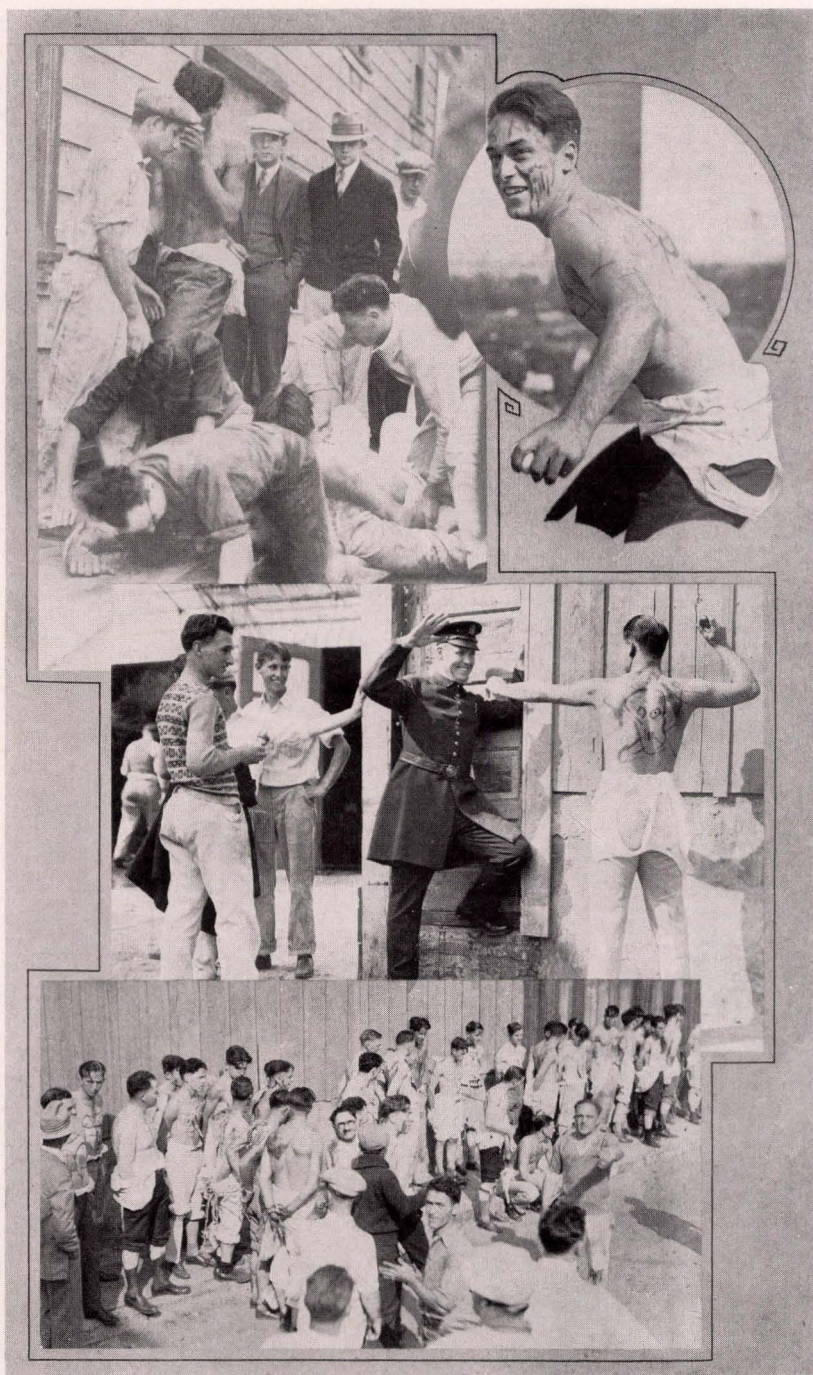

I, Bunky Weaver, aware that I must bid farewell, leave to my brother Art all my dull burs and ivory teeth.

I, H. C. Wilkinson, feeling that the end is near, do hereby bequeath to my friend, "Kibitzer" Luhr, my surplus stock of Corega.

I, Casey Wong, bequeath to Tommy Buckman my uncanny ability to "fill" straights and flushes.

I, Bobby Yore, being the last member of this class (alphabetically speaking), do hereby request that my picture be placed upon the walls of P and S so that all new students may take a good look at what dentistry has done for me, before matriculating.

✦

Few will ever forget that eventful morn five years ago when sixty-odd fighting sophomores pounced upon a like number unsuspecting innocent Pre-Dents and introduced them into the ways and means of becoming a dentist.

What a sorry looking bunch we were, herded and bound and then marched up Julian Ave., to be slaughtered. Iodine, Mercurochrome, all had their place on that day. Mustaches were shorn, shirts torn, hair ruffed, and shoes scuffed.

How we all rallied and turned our united attention upon the meddling Juniors who had the audacity to

✦

DO YOU REMEMBER?

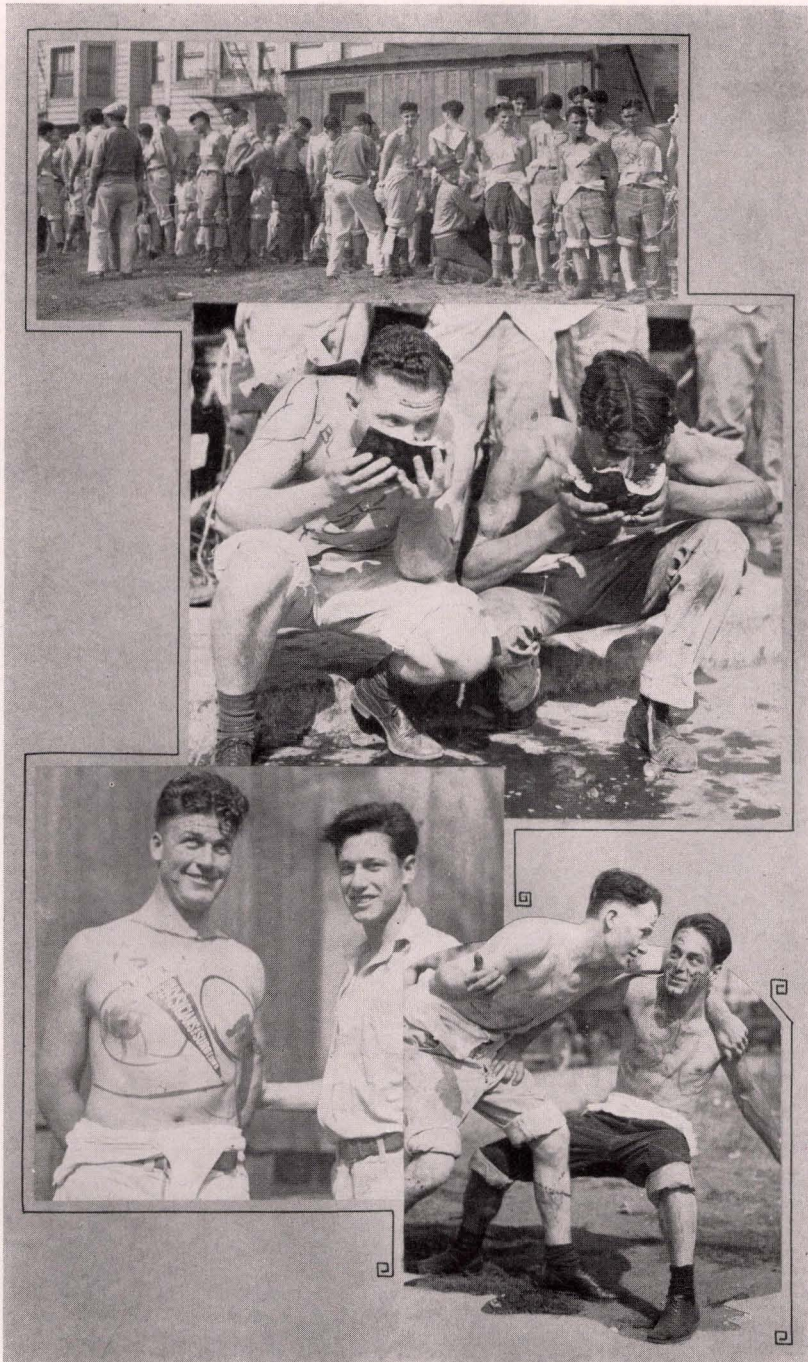

interfere with our egg catching contest. Will we ever forget how eagerly we got on the sending end of those eggs, and if there was any doubt as to our pep it was quickly and effectively ended right then and there.

We of the Class of '31 saw fit to abolish this form of welcome and it has since proved a wise move. But who is there among us who would have given up that experience.

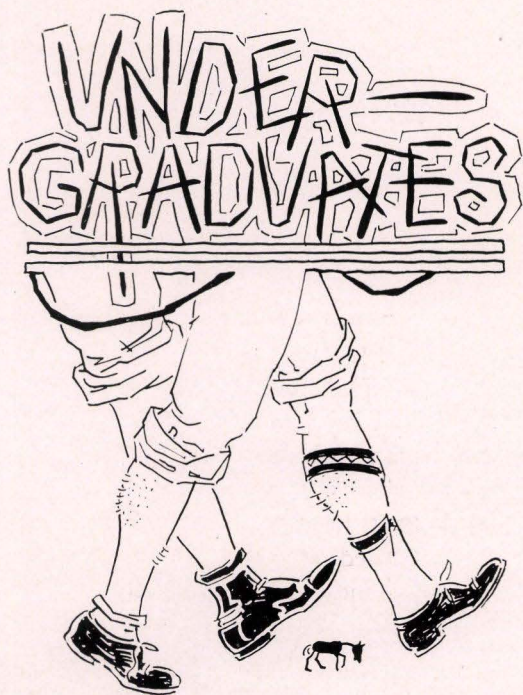

In coming classes hear something vague about the old time initiation. It will never be vague in our minds, but will remain as one of the enjoyable moments at P. & S.

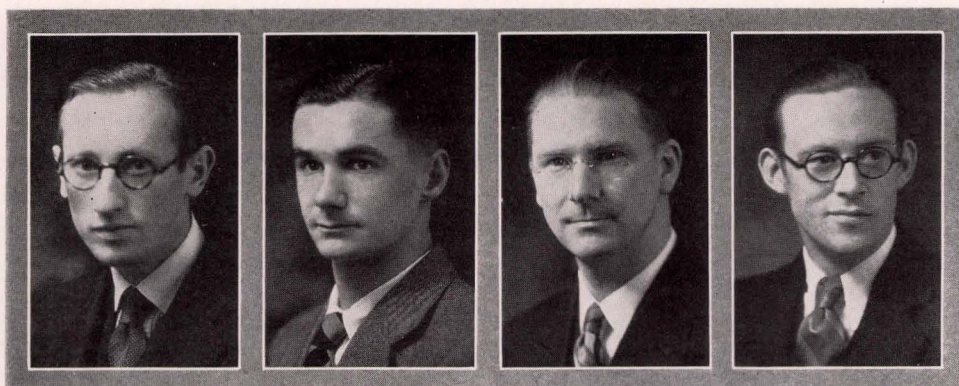

WAY BACK WHEN?

Here have we acquired many things . . . a splendid heritage, a liberal knowledge, a fellowship in a deathless service . . . and we have formed a host of friendships in our hearts. A friend is a priceless possession; no one can be more rich than we. Forged in five years at college, renewed by chance in years to come, these friendships will endure beyond our lives in the pages of our book.

Sophomores . . . an achievement sufficient to warrant an exhibition of inflated feeling . . . which we proceeded to have. Murray A. Bishop was our leader that year.

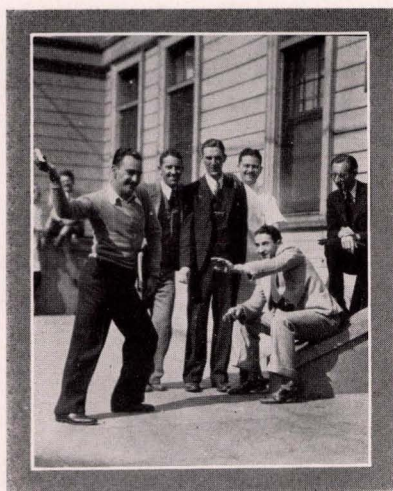

This, our fourth or Junior year, has found us well accustomed to the novel sensation of being upper classmen. Louis Hoeffler was chosen as President. The year marked a new era for the class of '32 for it meant the much awaited arrival in the clinic. Three years of intensive drill on the fundamentals of dentistry was put into actual practice on the unsuspecting public.

As the school year draws to a close we peer anxiously into the year ahead . . . our last. Just one more year in which to bend every effort to acquire more knowledge and expense which is ours for the asking.

and begin actual operation upon living tissues. It has been said that Sophomores always know everything and are in their own eyes quite self sufficient; maybe so, but as the clinic looms before us, a matter only of weeks, we feel that there is plenty that we wish we knew that we do not. That first patient (noble martyr) will be approached with great temerity.

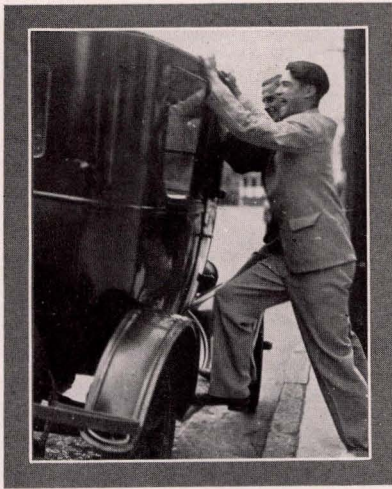

Extra-curricula activities throughout the year have not been lacking and great pleasure has been derived from such functions as the Freshman-Sophomore boat ride, the Freshman Reception, Field Day, and Senior Farewell.

Hard though it has been, this last year leaves us the happy and gratifying sense of having made progress. The days of doing this, and studying that and "Why not knowing", are passing, and various courses have become a correlated background. We feel that we have a toe-hold and are ready for what the next two years may bring.

FRESHMAN CLASS

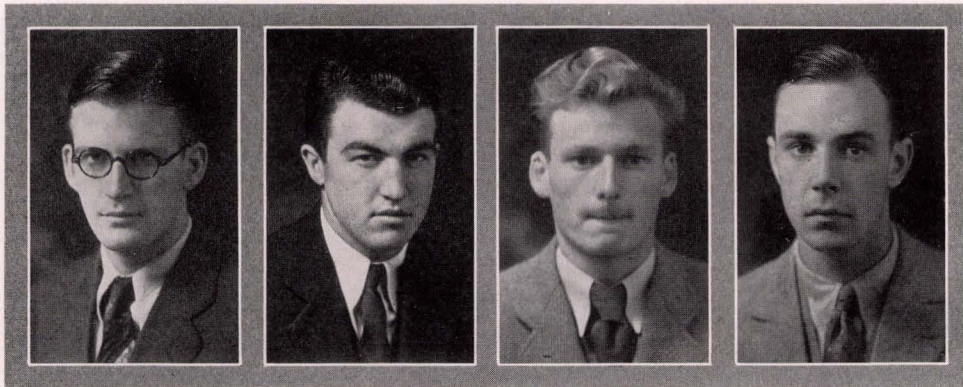

By W. A. HAGANS

OUR dental career started on September 2, 1930. Although we were all more or less strangers our number was small and we soon became acquainted. With the aid of upper-classmen we were organized and officers for the year were elected. G. C. Rader was chosen to take over the rule of the class and under his guidance we have passed through a successful year. Due to the aforementioned size of the class we found that great things were expected of us and that the competition was to be very keen.

OPPORTUNITY to become acquainted with the Sophomores came early in the year on the Freshman-Sophomore boat ride. Fifty or more men on a small boat for the whole day gave us plenty of time to become better acquainted with one another. What Freshman doesn't enjoy a Friday off, anyway?

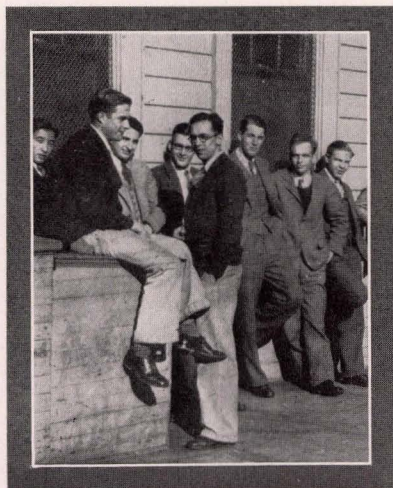

Next in our period of orientation came the Freshman Reception given in our honor by the Class of '31 at the Fairmont Hotel. In appreciation of this affair our class reciprocated with the Senior Farewell, the last social event of the year, at the Hotel St. Francis.

Our short stay here must necessarily make our history short and now, looking forward to finals, we hope to meet with great success so that we may all share the same privilege and honor during the next three years.

 WASSON *Walking edition of Gray's Anatomy.*
 WIRTZ *Characteristic laugh and grin.*
 WRIGLEY *The silent man.*

FRESHMAN DAYS

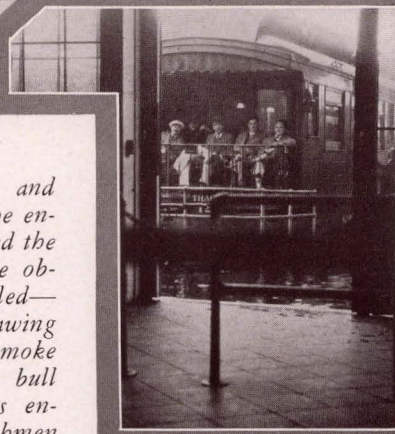

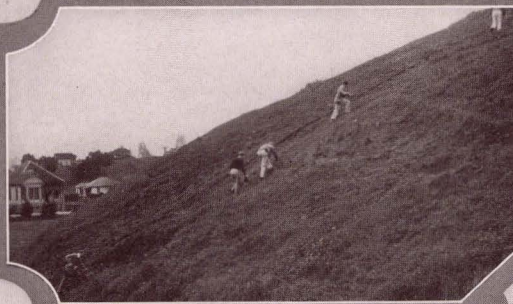

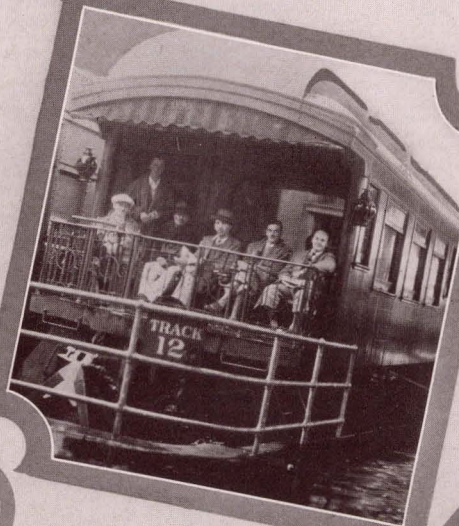

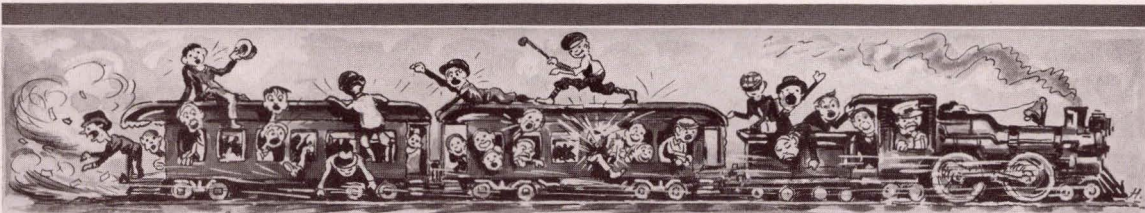

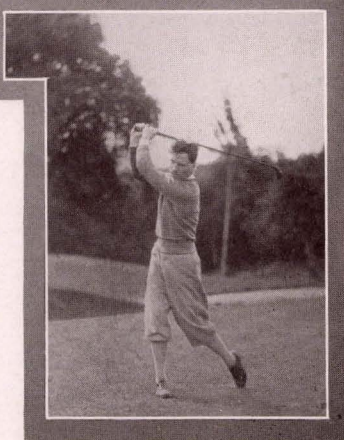

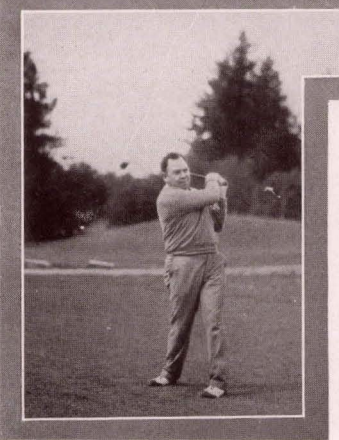

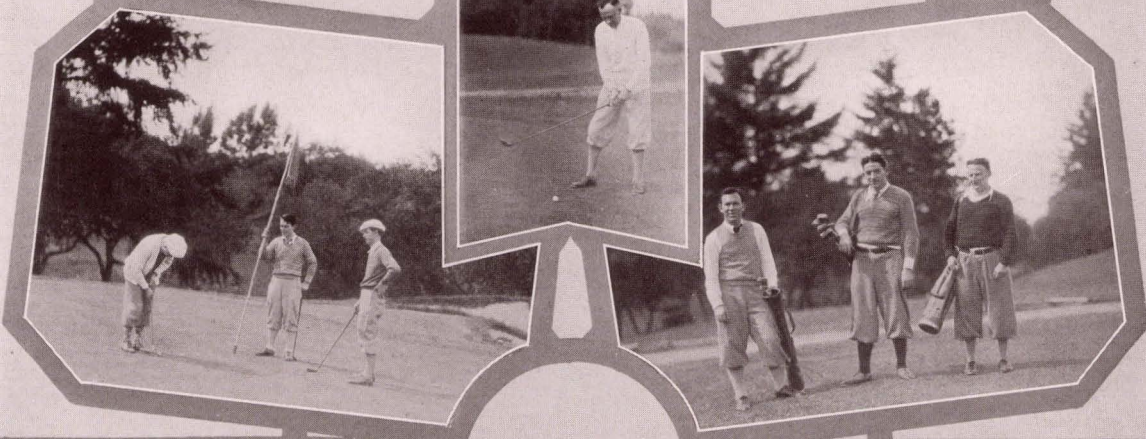

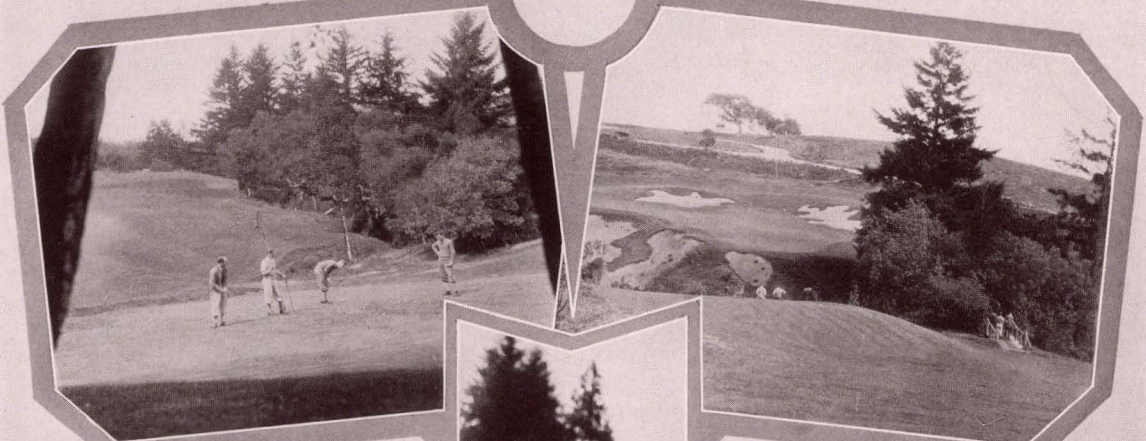

THE YEAR

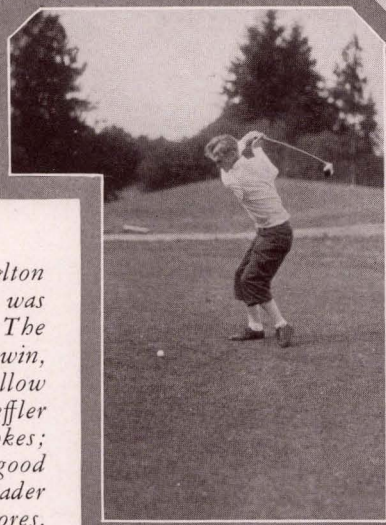

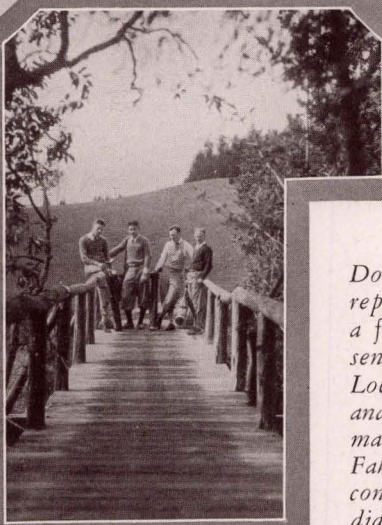

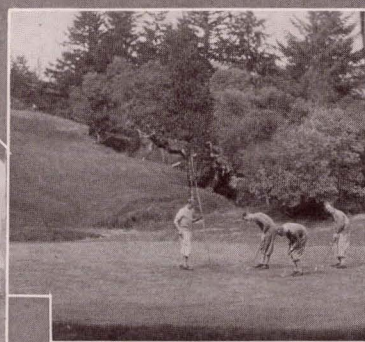

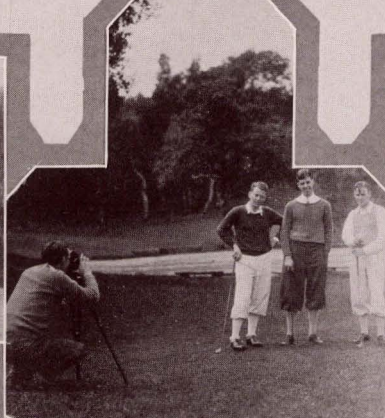

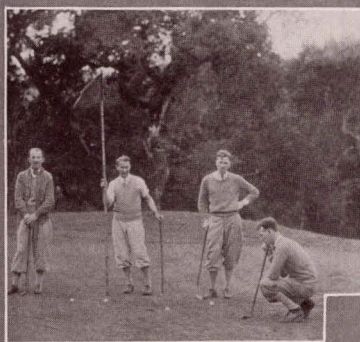

ALL ABOARD!

March eighteenth dawned dark, and dreary. Rain failed to dampen the enthusiasm of the crowd that boarded the Special train to Santa Cruz. The observation car was first to be filled—especially the rear platform. Drawing rooms were soon filled with smoke and sounds of card games and bull sessions. More riotous pastimes engaged the sophomores and freshmen as Santa Cruz was neared. Upper classmen, of course, partook of none of this.

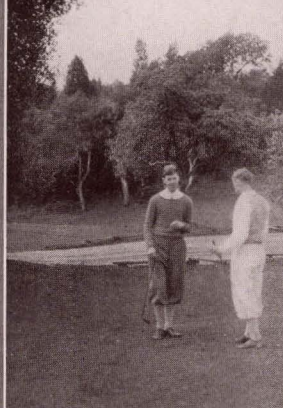

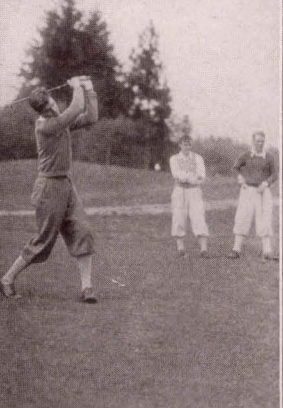

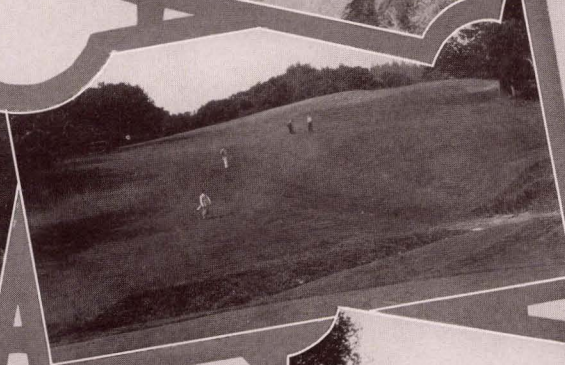

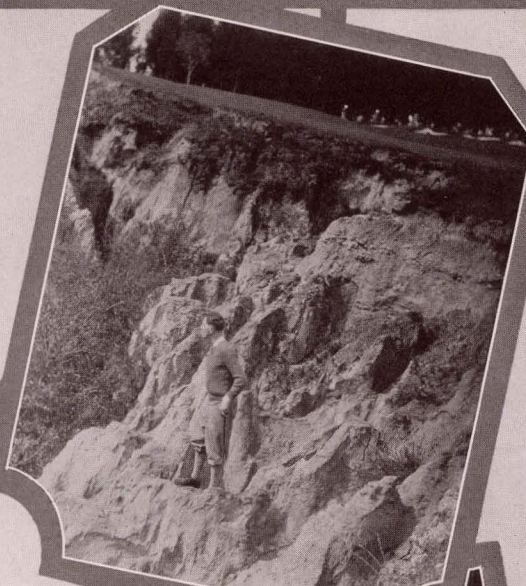

FORE!

Pasa Tiempo Golf Course—nestled way in the Santa Cruz mountains. Who wouldn't travel 75 miles in the rain to play these eighteen holes. Such a setting—beautiful well-kept greens, laid on gently sloping hills. Oak trees in picturesque little groups. Deep ravines lined with redwood trees. Down the fairway, on the green—if you're lucky, down a gulch if you're not. Rather a wet day, but faculty and students mixed in a very enjoyable afternoon.

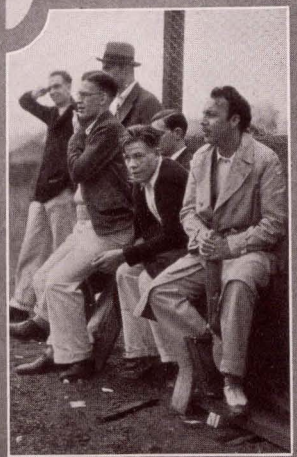

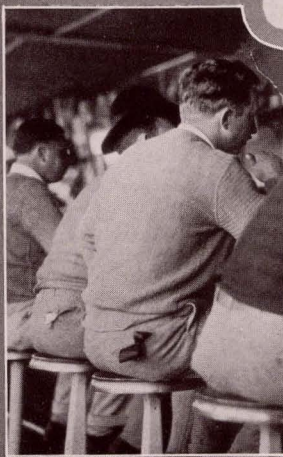

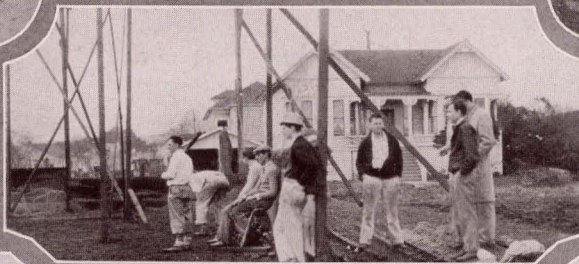

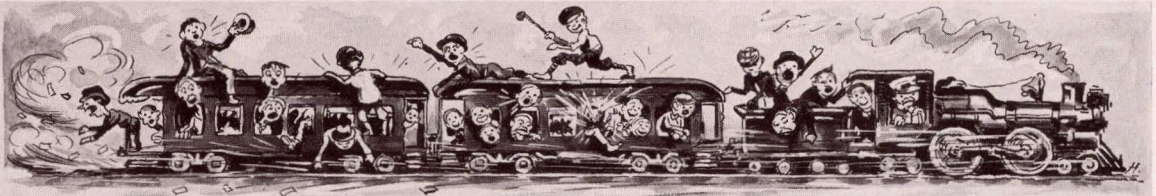

STYMIED!

Doctors Sloman, Selleck and Shelton represented the faculty and their's was a fast moving, low score group. The seniors were represented by Goodwin, Lockwood, Marsan, Camp, Swallow and Molinari. Morrison and Hoeffler made many yards in few strokes; Fahden and Wheeler played a good conversational game; Keffe and Rader did very well for the Sophomores. Miller shot some movies of notables. He was scenario writer, director and everything else on this day

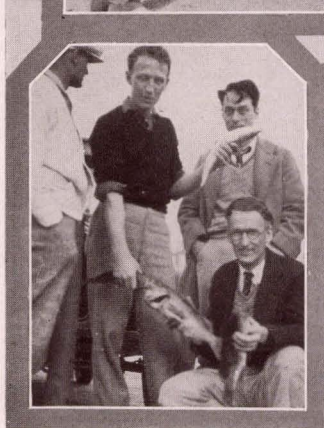

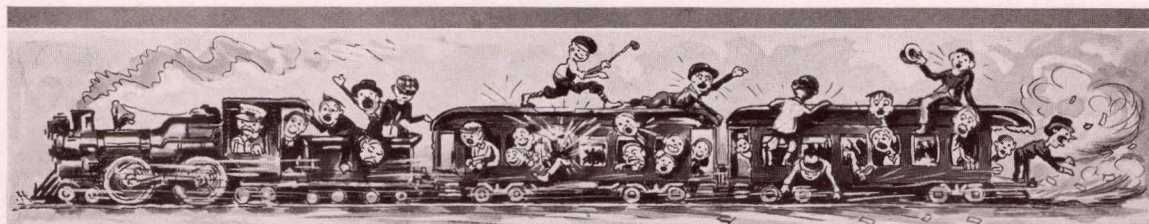

LOST BALL!

Looking for golf balls is not the most pleasing thing in the world, especially when it approaches climbing the Grand Canyon, but the scenery certainly made up for it. Around the eighteen holes, squeezing out an occasional par, across the gully to the eighteenth and then on to the bridge that carries you over to the green. A pause (long pause) while you add up your score, if you're able to, and then up to the clubhouse where if you're lucky there may be food.

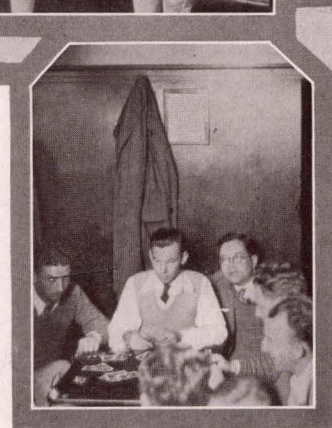

PLAY BALL!

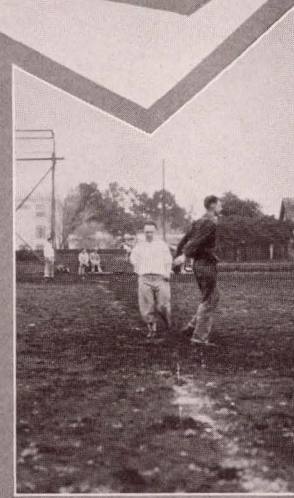

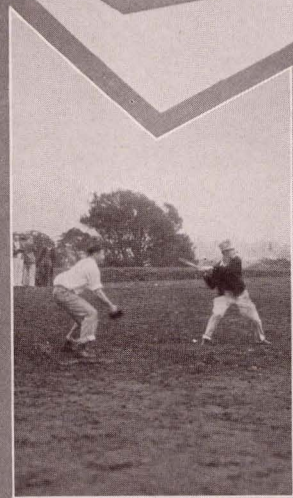

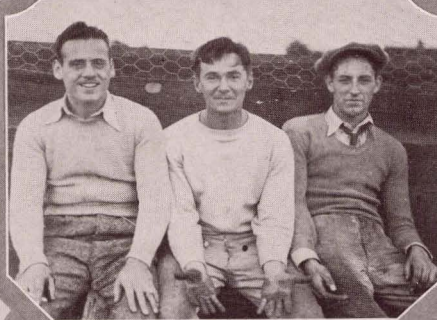

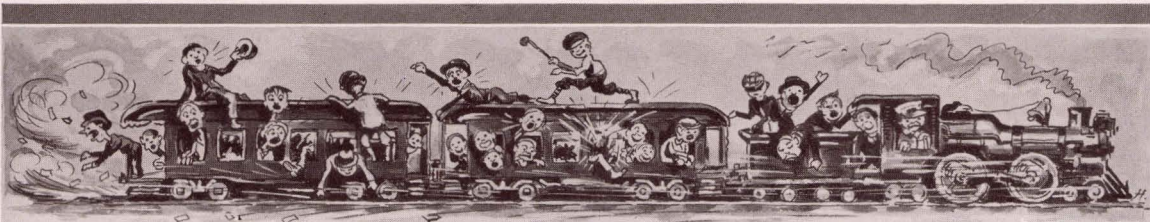

Santa Cruz High School grounds were used for the fifth time this year. Track and field activities were not entered into at all. A very muddy baseball diamond was the scene of a sloppy contest between the freshmen and what-have-you. A rally in the last couple of innings, much to the consternation of some of the more seasoned veterans, gave the game to the yearlings. Some of the boys preferred handball to baseball, others watched both, others ate.

LOAFERS!

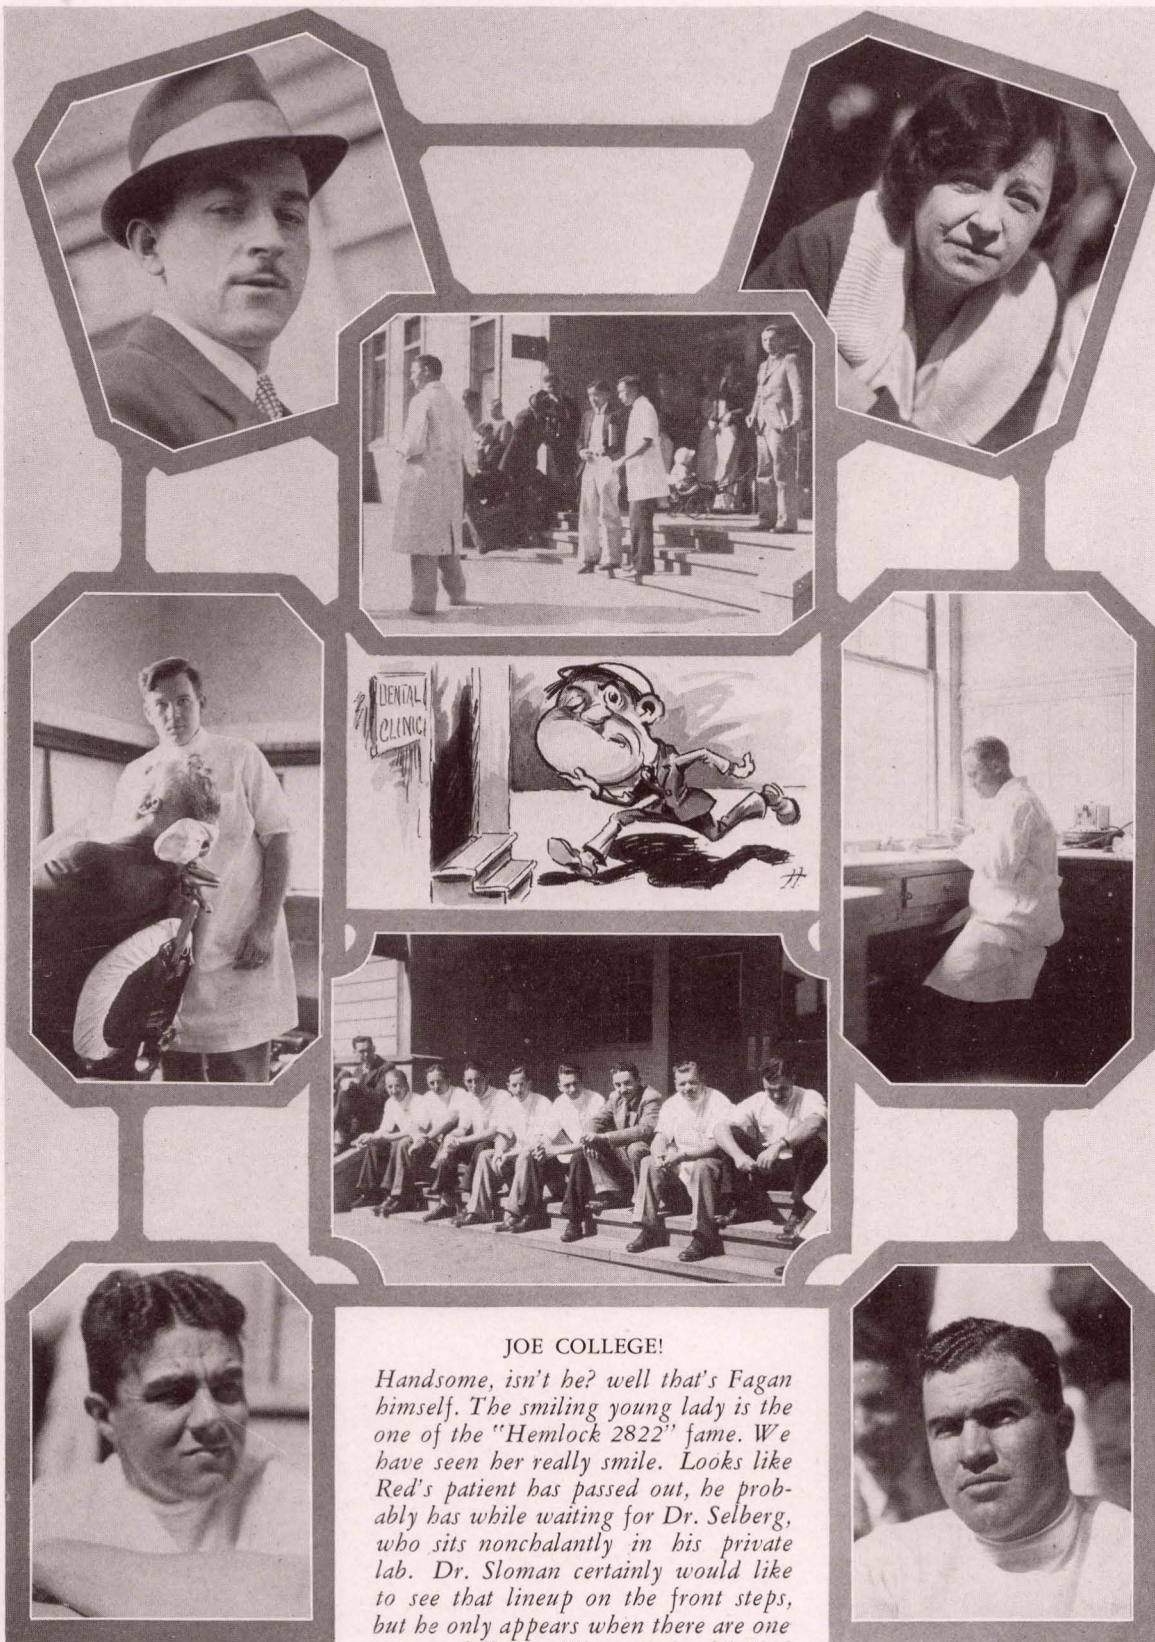

Many were those who just bummed around town and sought the beach. Some went swimming, many played the slot machines until broke, while others ate innumerable hot dogs and buns. Most of the fishermen claimed to have had a great day. Helfrich lost his keys in the big drink; Cox, Clegg and Mancuso treated the fish to a fine meal. Ballard and Bergman dragged in all they could handle. A riotous good time was enjoyed by all.

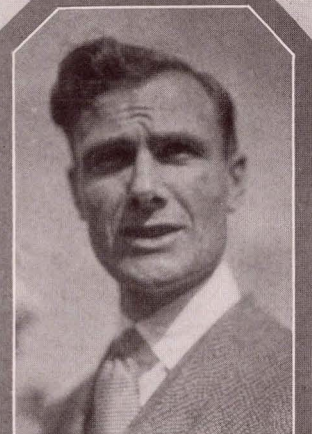

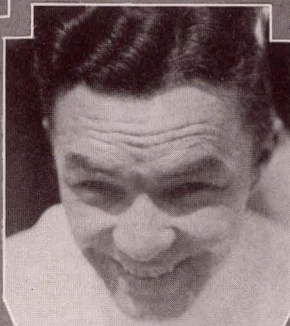

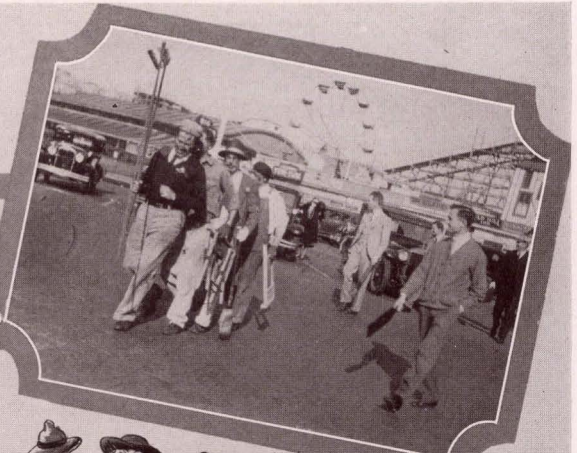

YOU'RE OUT!

Two brand new baseballs belonging to the Junior class were entrusted to the great pitcher, the one and only, Parrot Buschke. Deciding these too good to dirty in the mud, he forbad their use and took them and himself to town, where he went into seclusion. The freshman victory was due solely to the absence of this great heaver. Phil Weaver just couldn't lay off that ball, while Cantou and Lewis just smeared themselves with mud.

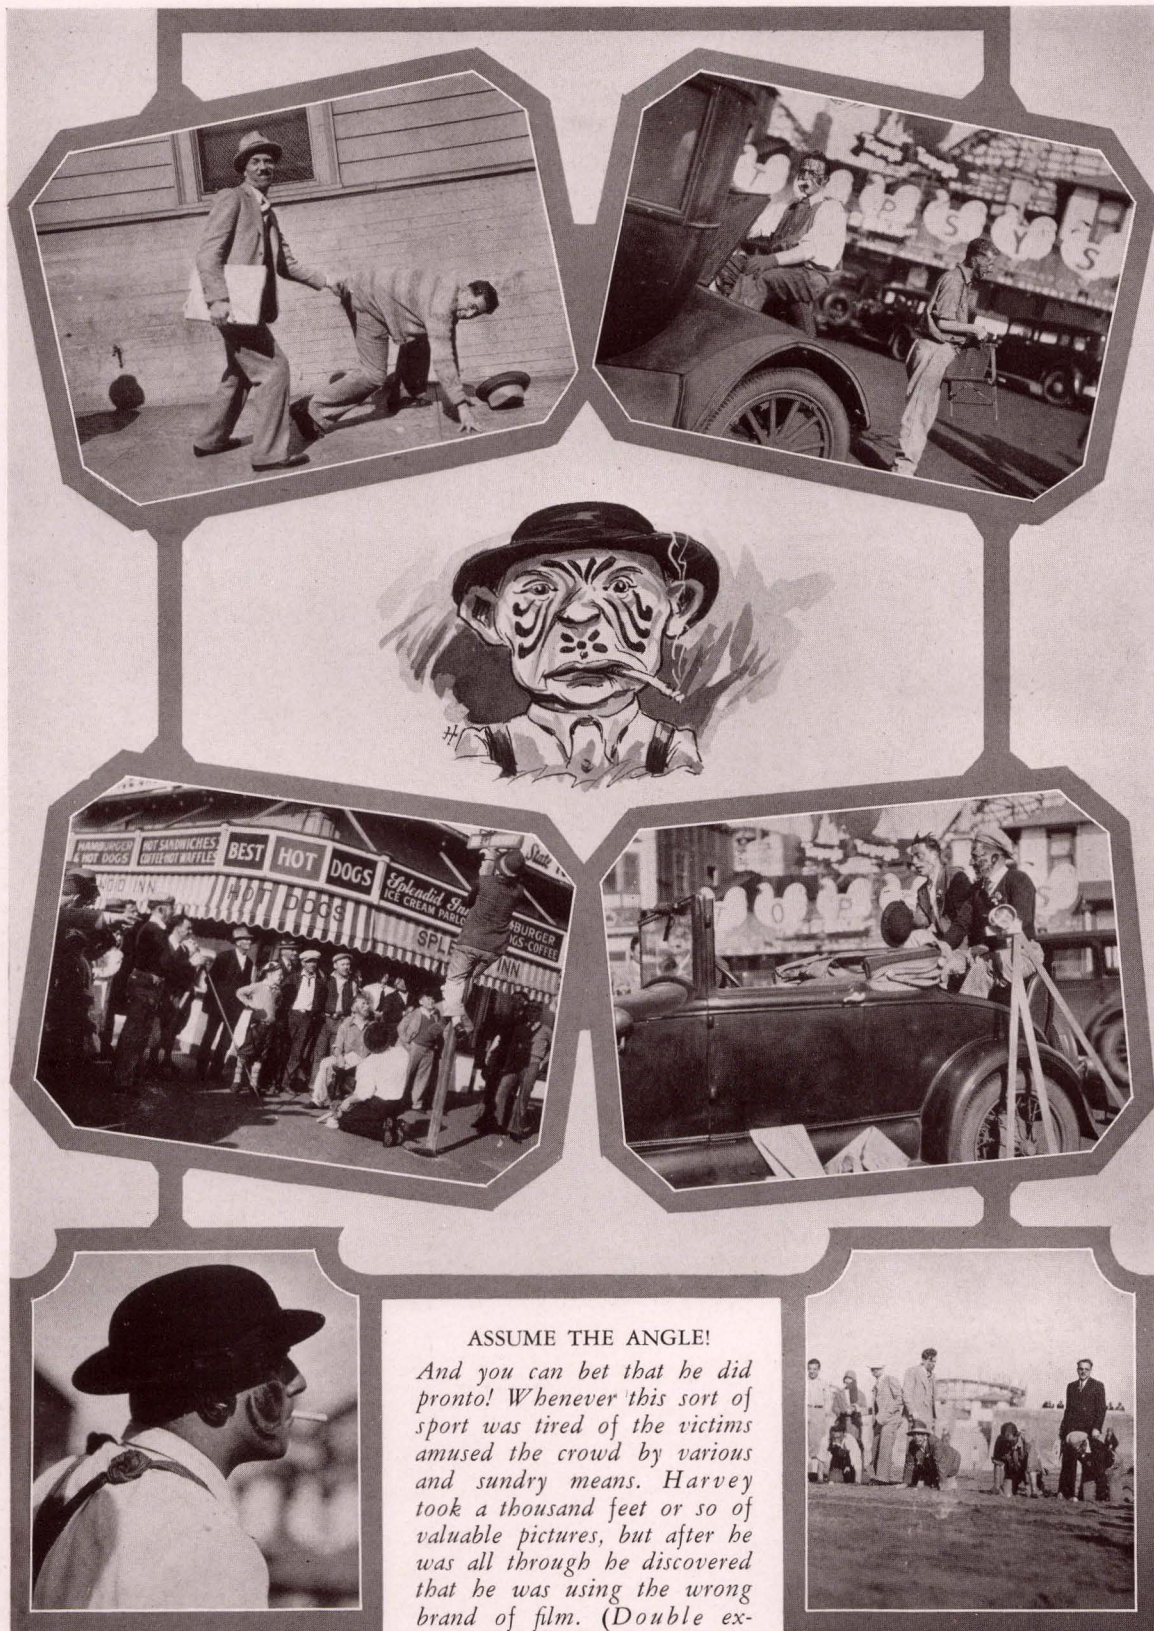

JOE COLLEGE!

Handsome, isn't he? well that's Fagan himself. The smiling young lady is the one of the "Hemlock 2822" fame. We have seen her really smile. Looks like Red's patient has passed out, he probably has while waiting for Dr. Selberg, who sits nonchalantly in his private lab. Dr. Sloman certainly would like to see that lineup on the front steps, but he only appears when there are one or two fellows. The two hard-boiled maps speak for themselves.

SOCK 'EM!

Ever been initiated? Neither had these fellows but they certainly could tell you plenty about it now! The Zips enjoyed one Saturday afternoon putting a few of the boys through their paces. Dick Sabini, Tagliaferri, Harvey Knowles and Al Marsan were the victims, and al enjoyed a very warm afternoon. Bobby Yore doesn't belong in this group, but he's so darn small he's just liable to slip in most anywhere.

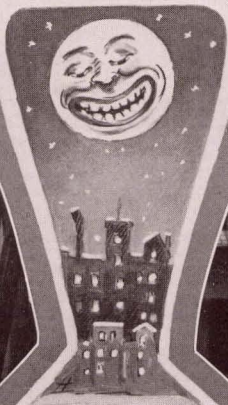

ASSUME THE ANGLE!

And you can bet that he did pronto! Whenever this sort of sport was tired of the victims amused the crowd by various and sundry means. Harvey took a thousand feet or so of valuable pictures, but after he was all through he discovered that he was using the wrong brand of film. (Double exposure) The gentleman with the brown derby is not Al Smith, only "Tag".

NIGHT OWLS!

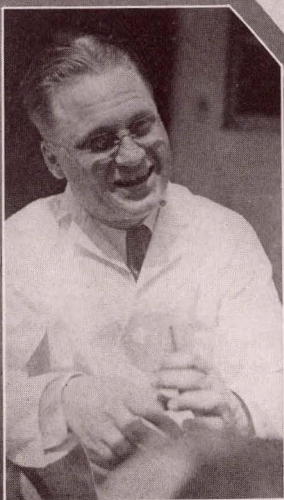

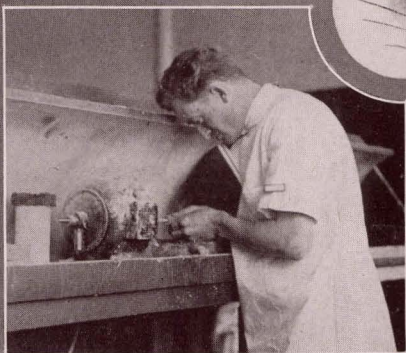

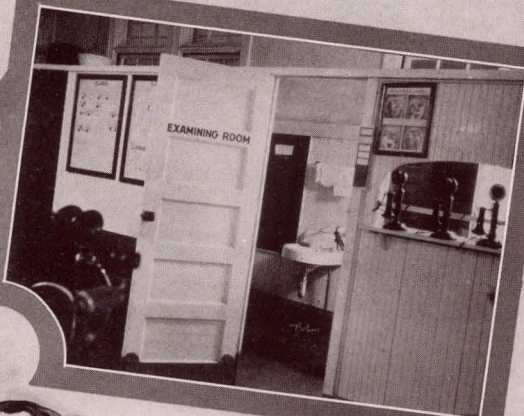

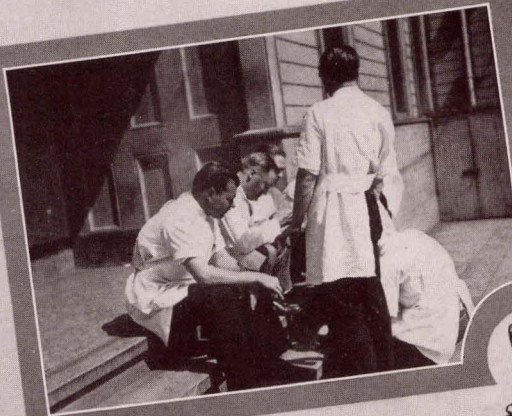

Oh, yes! another enjoyable pastime practised at college this year was the Wednesday evening prosthetic classes. Some bright mind conceived the idea of this weekly episode where setups a-la-Hanan was the order of things. Kind of a sleepy looking bunch, aren't they. A decided improvement in the art of setting store teeth was noted due to the untiring efforts of the gentleman on the right, center, Dr. Jack Werner, our pal!

FAIR ONES!

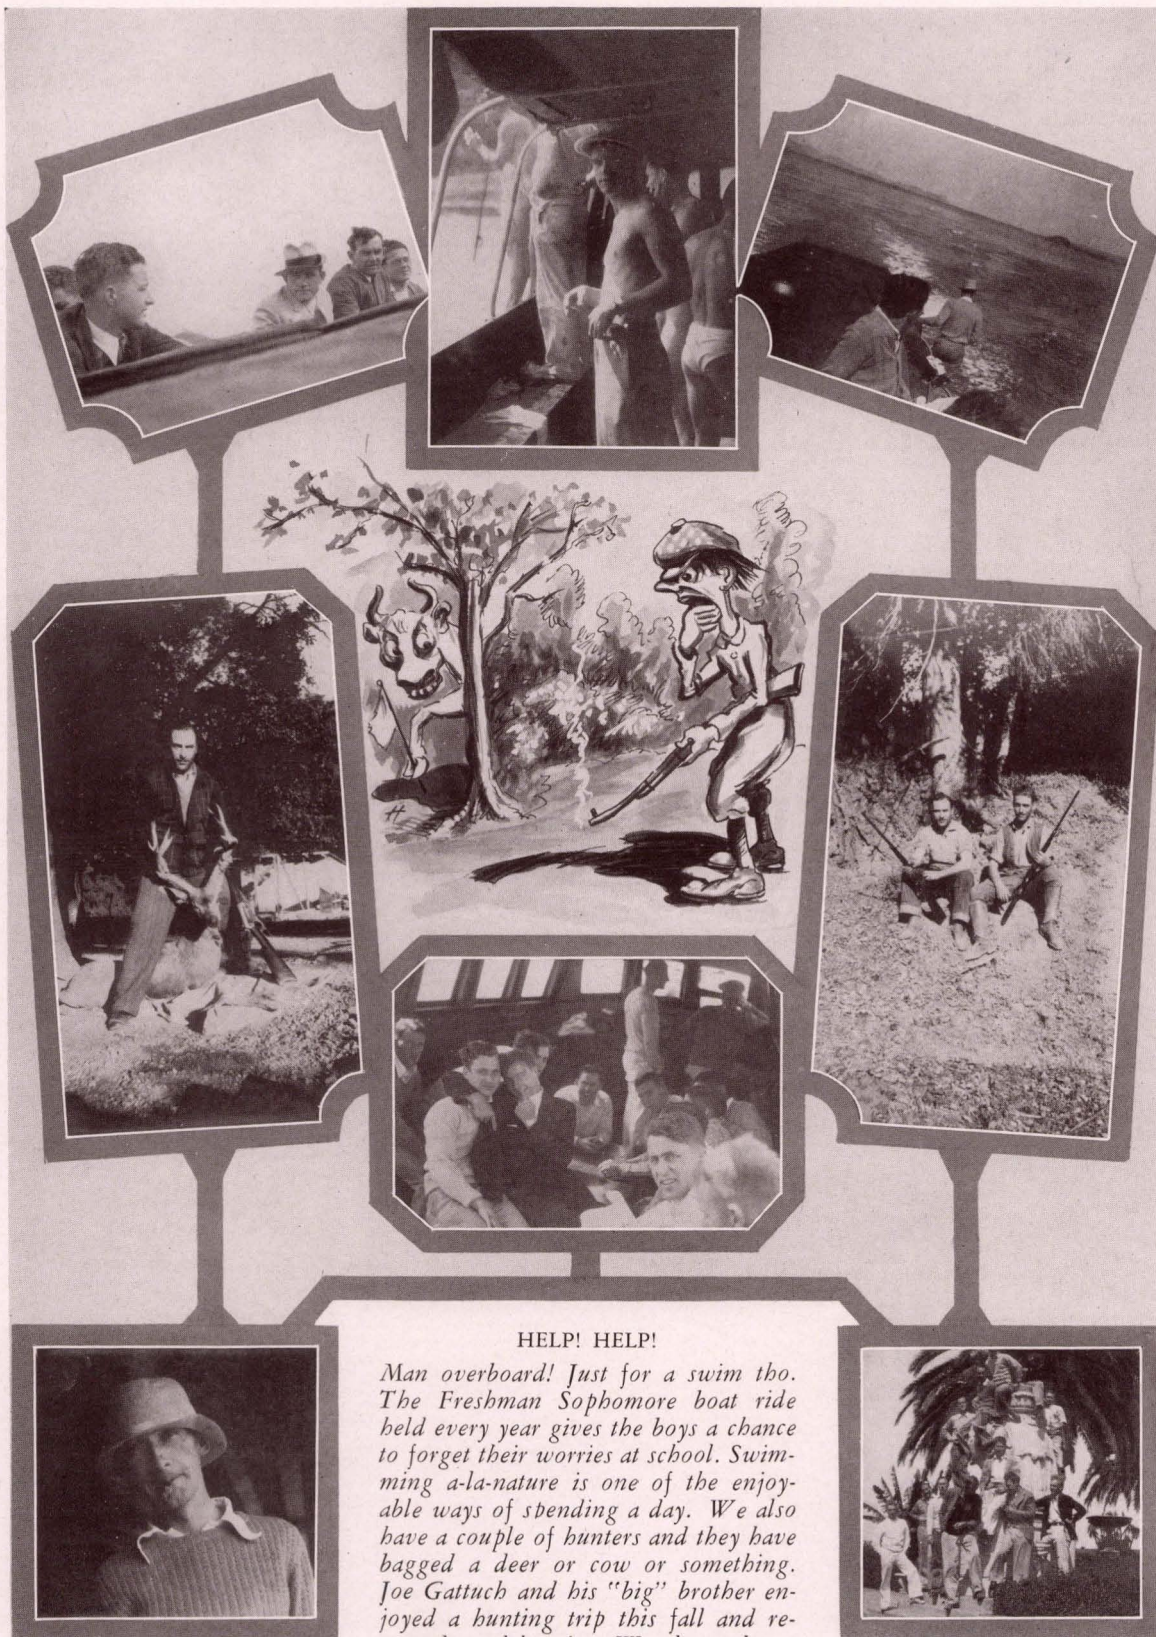

Yes, there seems to be a decided increase in the number of the fair sex around college these days. One saw to it that the black list was in the hands of seniors on time while the other handles the bugs in bacteriology. In the lower right hand corner we have our friend and preceptor, Dr. (Joe) Meadows. From Freshman to graduation there is one who is ever ready to lend a helping hand and it is Dr. Meadows.

BANG! BANG!

Knocking out plates for our edentulous patients is one of the favorite indoor sports. Curt Swallow seems to be busily employed putting on the old apple polish or heel oil, or what-have-you. Of course there is no need of an introduction to the two plain clothes men below. Len Taylor and Lou Cortney have been familiar figures around school for the past five or six years. Of course, Dr. Selberg is happy, who wouldn't be with a brand new wife.

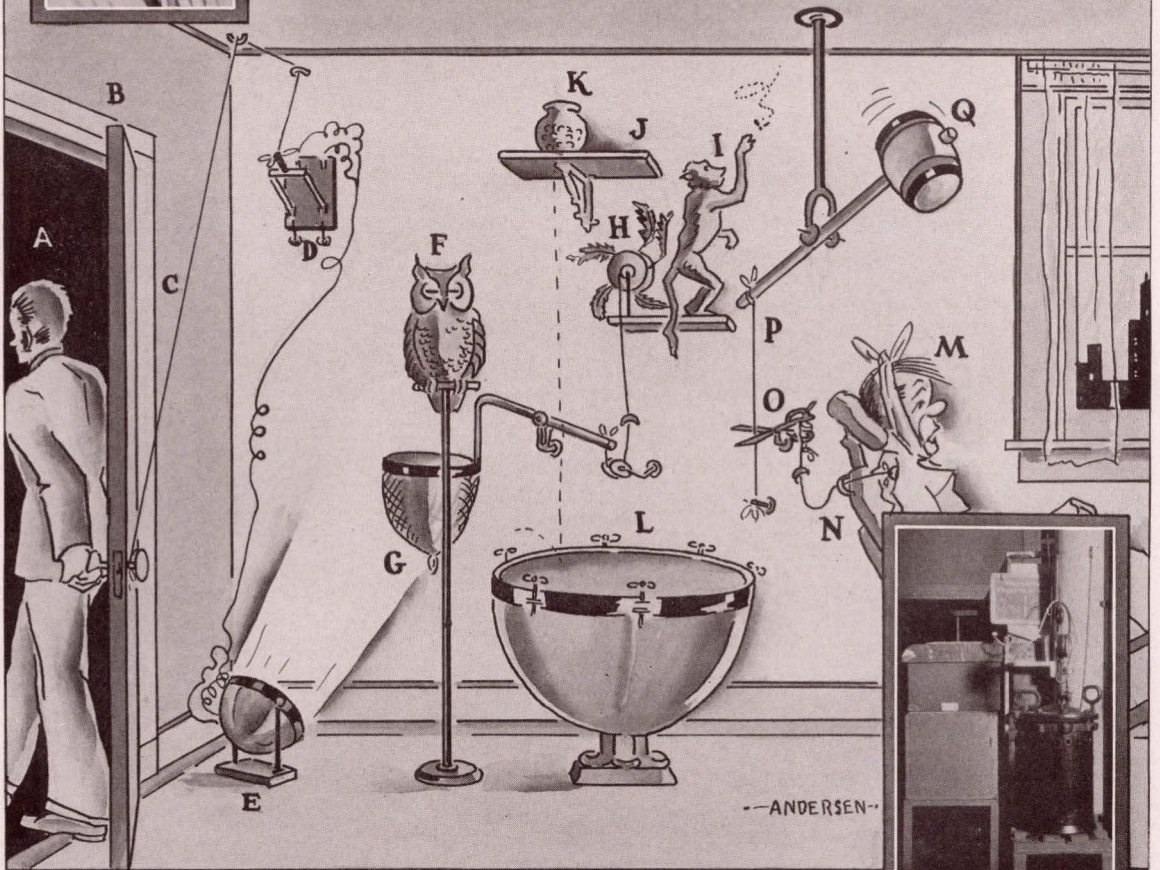

HELP! HELP!

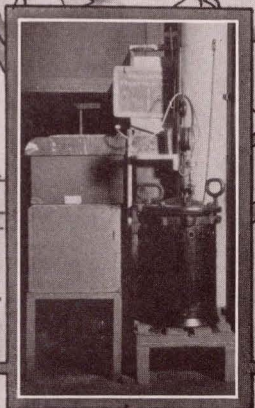

Man overboard! Just for a swim tho. The Freshman Sophomore boat ride held every year gives the boys a chance to forget their worries at school. Swimming a-la-nature is one of the enjoyable ways of spending a day. We also have a couple of hunters and they have bagged a deer or cow or something. Joe Gattuch and his "big" brother enjoyed a hunting trip this fall and reported good hunting. We always knew Joe was a good shot.

CHIPS

11

A CHRONICLE of the college year... "CHIPS" is truly that and more. It is a well organized scrap book for the class of '31, and the means of bringing memories of after years. Such has been the function of "CHIPS" since its first inception.

During the past five years we have all changed. Most of us came to P. & S. with little or no conception of the significance of dentistry; it was more the thought of an education or the desire for a taste of college life that brought us here.

But slowly we have formed new ideals... ideals like stars, ideals born of men who can never die. Men who have been welders of dentistry; men who have but one love, and that for their profession. Men who have risen above disappointments and losses, who have not recognized defeat and who would not listen to the tempting words of victory. Men to whom no sacrifice could be too great for their profession, and to whom selfishness was a thing unknown... and such men of iron have come to be our inspiration, and their ideals to be ours.

R. F. KELLEY
Business and Advertising Manager

P. F. GLAIBERMAN
Assistant Business Manager

D. H. MILLER
Photographer

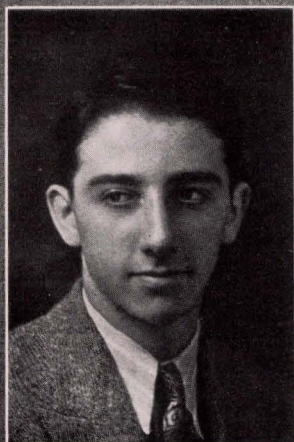

1931

THE editing of "CHIPS" this year has presented a problem to the staff, one of expense. We were confronted with the task of publishing a book on a par with those of former years with a decrease in the budget allotted us due to the small student body. At the same time we have attempted something never before tried in an edition of "CHIPS". The introduction of four colors throughout, and a pictorial section in special color which we feel will present an interesting and attractive book.

We are indebted to many people for their aid in preparing this book. In Mr. T. H. Ellsworth of the Commercial Art and Engraving Company we have had one who has been unfailing in his efforts to make this book the outstanding success we feel it shall be; Mr. Gibson for his untiring efforts in taking the individual pictures; Mr. Joseph Murphy of the Guaranty Printing and Lithographing Company has given us a printing job which in our minds is excellent. The work has brought an experience, an education; and, above all, those close friendships which are born of long association and a common aim.

CONTACT POINT

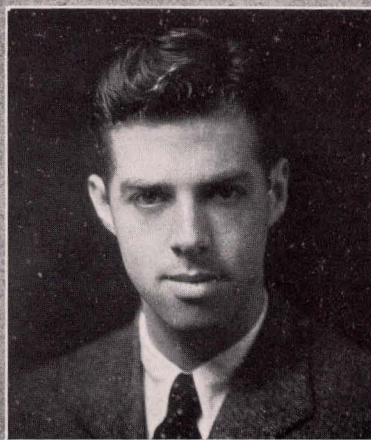

THE past year finished the eighth volume of CONTACT POINT. It was one of conspicuous growth, not in size but in quality of its contents. This is reflected by the more numerous quotations which our paper has received. One of its articles, "Bacteria Present in Pulp and Granuloma" by R. F. Yore, '31, was reprinted in *Oral Health*, the official organ of the Canadian Dental Association. The innovation of printing some of the Theses presented for the Bachelor's Degree proved highly beneficial, and has brought comment from prominent men in dentistry.

Among the articles printed were the theses by H. C. Wilkinson, "*Streptococci in Dental Caries*;" M. J. Curley, "*Experimental Vincent's Infection*;" E. L. Haas, "*Experimental Caries*;" and W. F. Sayles, "*Premature Loss of Deciduous Teeth*."

Other interesting articles were, "*An Autobiography*" by Dr. A. F. Merri-
man, "*The Cause of Dentistry in a Democracy*" by Dr. A. M. Meyer, and "*A Trip to Mount Hamilton*," by Professor Hackh.

J. A. ABBOTT
Business Manager

R. S. MORRISON
Assistant Business Manager

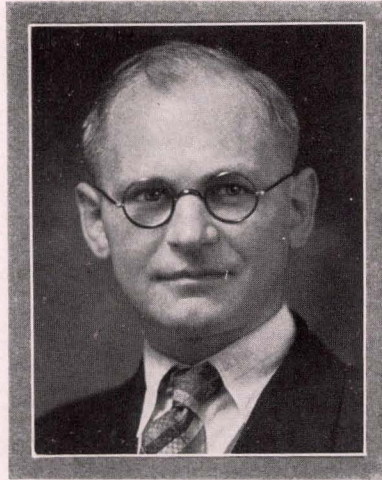

1931

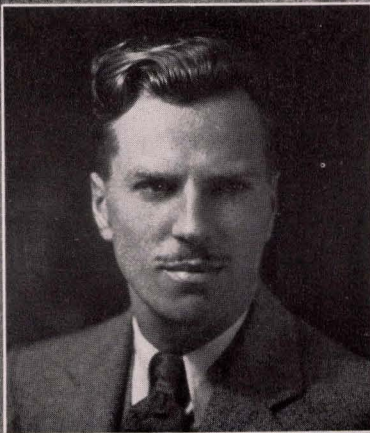

THE CONTACT POINT started the year with Wilbur Parker as Editor, but owing to the strenuous senior year, Wilbur was forced to resign in favor of Jean Cantou, who continued the merry job of collecting various reports from Class Reporters, Fraternity Historians and other contributors.

Ed Haas as Advertising Manager and Senior Reporter was kept busy sending bills and collecting for same, besides being the power behind the addressograph. Jack Abbott and Scott Morrison as Business Managers had the task of separating and sorting the issues, and mailing copies to the Alumni. Jack in addition glorified in signing checks. Who wouldn't when they're not your own.

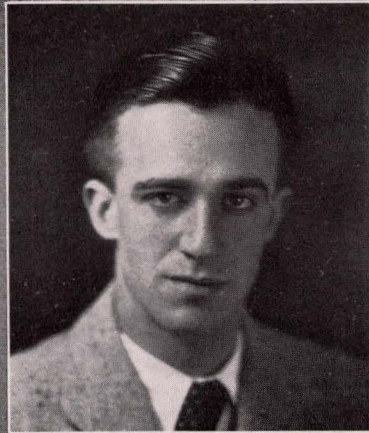

Only those who have worked on the staff can know of the trials and tribulations connected with bringing out a magazine on time each month, and every member of the Staff deserves the full and hearty thanks of the Student Body.

Love Song of a Dentist

Beyond the cavities of doubt,
Beyond the dull ache of despair,
I know the truth, and it must out:
I love you, dear . . . I find you fair.

There are no gaps I cannot bridge,
No yawning voids I cannot fill,
If you bestow the privilege
Of your sweet smile . . . oh, say you will!

I gas-p for you . . . don't make me wait!
I swear I'll cause you no distress,
And you shall have a golden plate . . .
Open your mouth, please . . . and say yes!

—ADELE DE LEEUW.

AWARDS AND HONORS

1 1

AT THE thirty-fourth Commencement in May, 1930, in the College Auditorium the awards and medals were announced and presented to the following graduates:

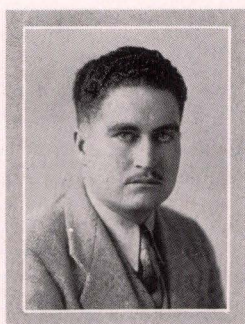

E. J. FLYNN, winner of The Scholarship Award offered by the Dean in the form of a scholarship medal to that senior student who achieves the highest percentage in both theoretical and practical work during his entire college course.

E. J. LATTIG, winner of the Superintendent's Award in the form of twenty-five dollars (\$25.00) to the senior student who is most proficient in infirmary practice, course 69.

B. H. GLASSGOLD, co-winner with V. Libcits of the California Study Club Award. With the desire to stimulate interest in gold foil operations, the California Study Club offers an award of fifty dollars (\$50.00) in gold foil work, course 60C. The club will be judges of a contest involving the five highest men in the course. The award will be made as the result of a class two foil operation, which will take place on the second Monday in April. At the time of the presentation of the prize a suitably engraved certificate will also be given.

L. N. BRIONES, winner of the Edward F. Blanquie Memorial. In 1927, Dr. R. H. Blanquie, of the class of 1917, established a perpetual award, in memory of his father, Edward F. Blanquie, of a Life Membership in the Alumni Association to be granted "to a worthy and ambitious senior student of limited means whose upright character, diligent application and persistent effort in securing a dental education at the College of Physicians and Sur-

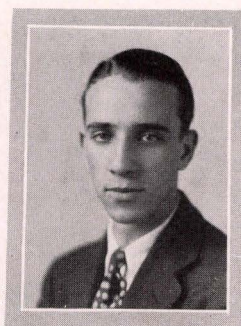

geons of San Francisco mark him as an example to students desirous of obtaining an education."

Mr. Briones was also winner of the Psi Omega Award. An annual award of twenty-five dollars (\$25.00) given by Golden Gate Alumni Chapter of Psi Omega to a Beta Sigma senior whose type, character, qualifications and attitude toward his work are exceptionally outstanding.

W. R. BERKOWITZ, winner of the Oral Surgery Award. An annual award of a complete case of surgical instruments will be given by the head of the Oral Surgery Clinic to the most proficient senior student in Oral Surgery.

Mr. Berkowitz was also winner of an annual award of twenty-five dollars (\$25.00) given by the California Academy of Periodontology to encourage greater interest in periodontia. The award will be made by the California Academy of Periodontology, who will be the judge, or designate from its membership the judges of a contest involving the students of the senior class writing the best thesis on the subject of periodontia or periodontoclasia.

CALIFORNIA STUDY CLUB

THE California Study Club desirous to stimulate interest in Gold Foil work, met at the College on January 12, 1931, and presented a clinical demonstration on the proper placing of gold foil restorations for the benefit of the Senior Class. There were ten operations, each member of the club operating before an assigned group of four senior students. The speed, as well as the methodical manner in which the work was done was of particular interest to the students. Every operator readily answered any and all questions or problems presented by the students. As a whole the meeting was a decided success and the Class of '31 expressed deep gratification for the California Study Club's generosity.

Another feature installed at the College by the California Study Club has been the annual gold foil contest between a group of picked men, all seniors, selected by the Professor of Operative Dentistry as outstanding in this type of work. The club has donated each year as first prize for the winner of the contest, fifty dollars (\$50.00). Each of the students is required to prepare and place a class two gold foil restoration. The judges of the contest are the members of the California Study Club. This year due to the keen competition and excellent quality of work among the seniors, it has been necessary to select fourteen men to operate in a qualifying contest on April first, from which a group of seven will be picked to operate before the members of the California Study Club for the prize. As this contest is usually held in April, it is impossible to print in CHIPS the names of the contestants, as the annual is already on the press. However we will publish the only available names at this time, those of the fourteen already selected.

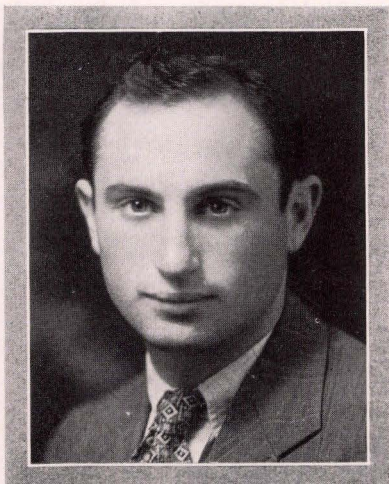

J. C. Bascom	A. R. Goodwin	A. T. Lockwood, Jr.
L. O. Bishop	E. L. Haas	W. M. Mortell
C. M. Camp	E. F. Inskipp	J. W. Scott
L. M. Cox	N. Koldinger	R. M. Wagner
I. Gattuchio		R. F. Yore

The members of the California Study Club, through whose kindness and generosity both the gold foil demonstration and the contest were given, and who served in the capacity of clinicians and judges, are as follows:

Dr. W. E. Gammans	Dr. A. C. Nor	Dr. R. W. Rule
Dr. R. B. Giffen	Dr. M. T. Rhodes	Dr. H. D. Smith
Dr. F. H. Locke		Dr. G. B. Yount

SAM SUSNOW
Captain

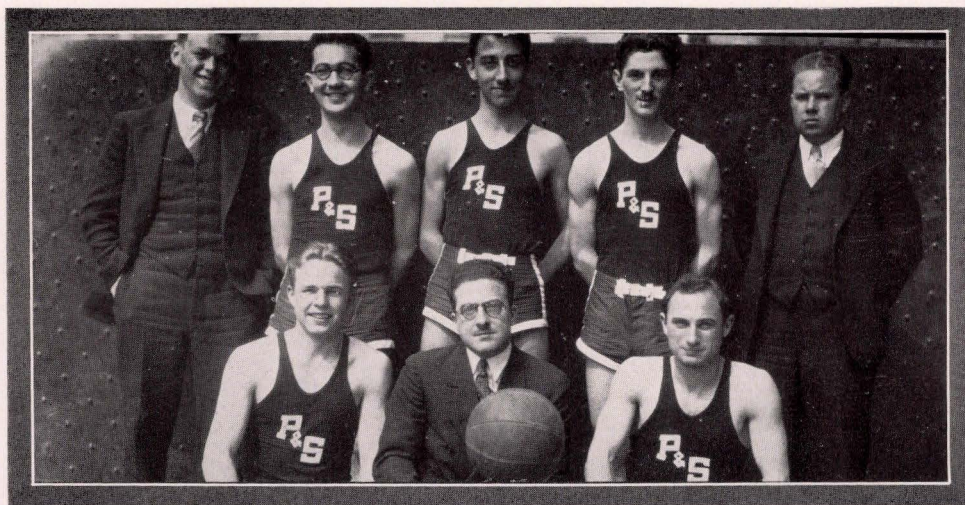

BASKETBALL

By FRANK E. FRATES, JR.

THE basketball team of P. & S. turned in a good record under the able tutelage of Coach Andy Molinari. Lead by the "Little General" Sammy Susnow, the casabans won seven games and lost one. In view of the amount of time that was given to practice, the record was an enviable one.

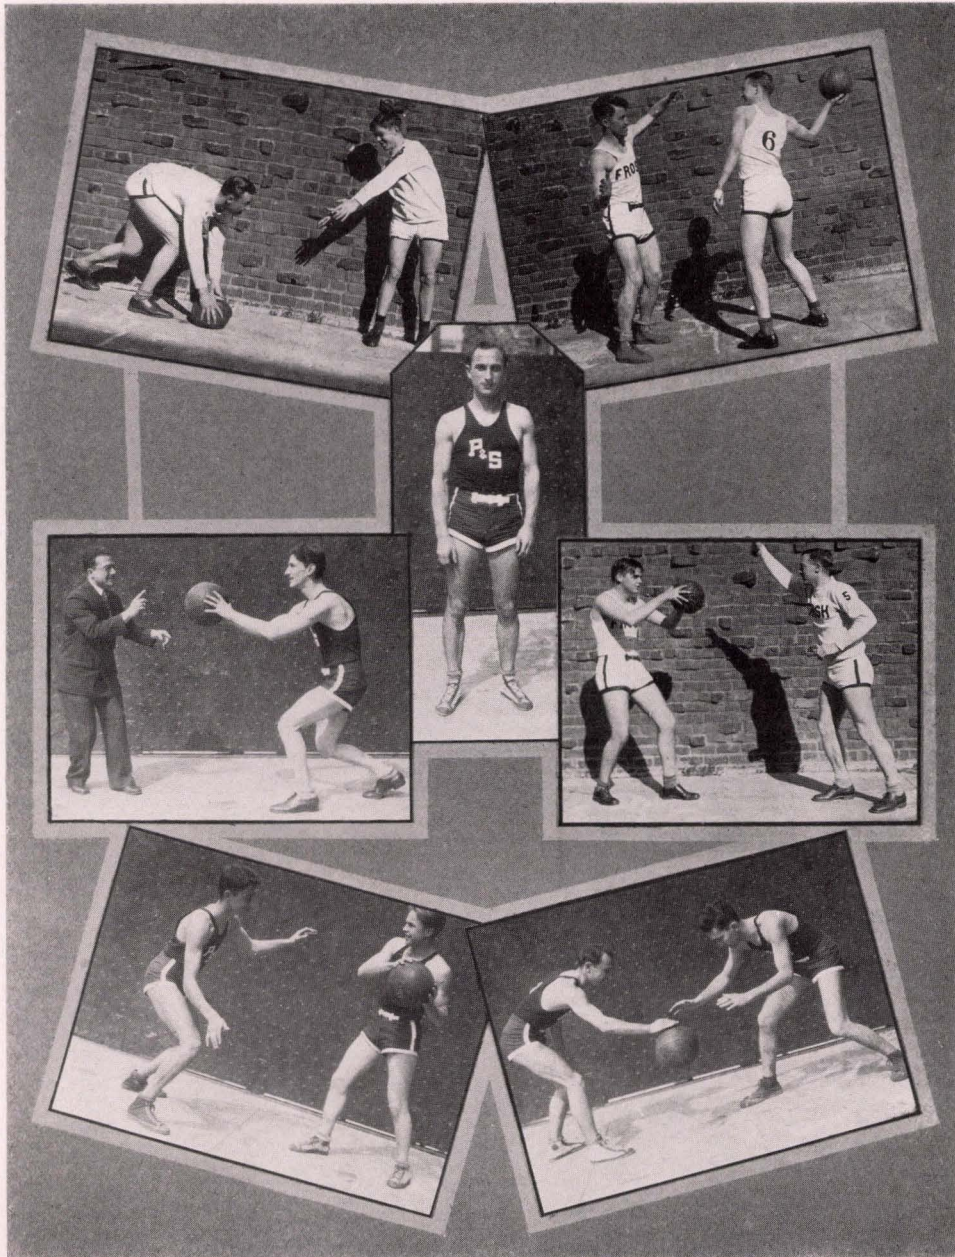

Games were played with leading school teams of the city, and judging from the number of invitations received to play with various teams next year, the boys will have a full schedule.

The members of the team were Captain Sammy Susnow, Allen, Bisio, Cuthbertson, Frates, Haun, Kauffman, Keeffe, Tesch, and Carmen Tagliaferri the manager and trainer. In order to procure the necessary money to purchase suits, the team held a theatre scrip book raffle and through the untiring efforts of Mrs. Lloyd, Dr. Kingsbury, and Dr. McEvoy, the contest was a huge success.

VARSITY BASKETBALL TEAM 1931

FRESHMAN AND VARSITY CASABANS IN ACTION

FIELD DAY

PROBABLY the most interesting student activity held during the past year was the annual Field Day. This year as in the past, Santa Cruz was selected as the scene of activities.

Leaving San Francisco at 7:00 A. M. Wednesday, March 18, the S. P. Special carried the excursionists direct to Santa Cruz. The three hours on the train were spent in card playing, water fighting, and what have you. Upon arriving at our destination, the golfers were transferred to machines and driven to Paso Tiempo Golf and Country Club where, due to the elements, swimming and golf were enjoyed at the same time. The remainder of the gang proceeded to the athletic field of Santa Cruz High School where an attempt to play baseball was made. As with the golfers, it was a game of hit and swim; nevertheless the best was made of an unavoidable situation.

Another bunch decided to have their water in a big way and hired a fishing boat. Not only was the fishing good, but some of the boys decided to help things along and proceeded to feed the fish.

Leaving for home at 5:20, activities took up where they left off, only with more vengeance, and by the time the city was reached, everyone including the porter on the train was convinced that a good time had been had by all.

~ ~

FROSH BASKETBALL

The Freshman class turned out in good style to support their team which resulted in the formation of a well organized team. All the boys were former Junior College players and under the direction of Leo Abate won a good percentage of their games.

The members of the team were Bishop, Lane, McCan, Rader, Rees, Peterson, and Randol. After viewing the basketekers in action, the writer is of the opinion that they will provide fine material for next year's varsity.

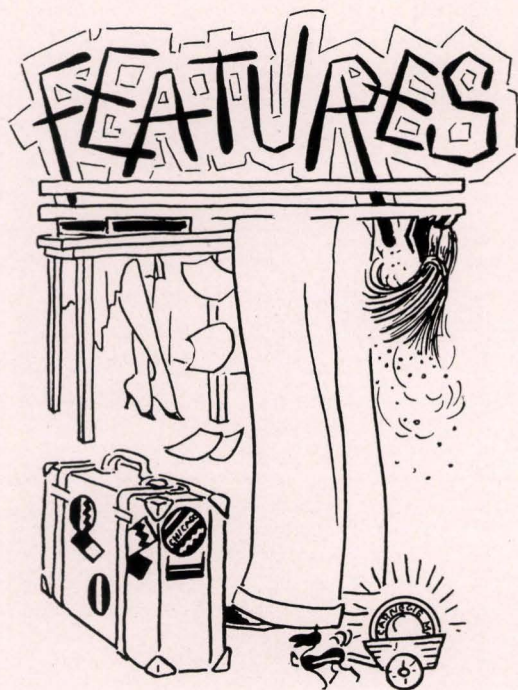

~ ~

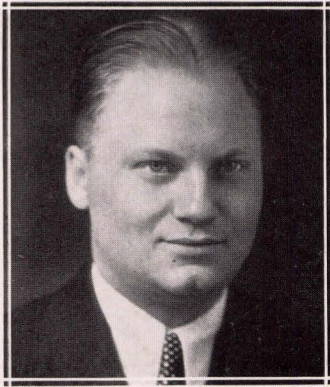

TENNIS

During the past year the racquet wielders of P. & S. enjoyed considerable success on the courts. Matches were played with many clubs in the bay region resulting in a goodly portion of victories for the college team.

Cliff Johnson and Al Allen formed the doubles team with Maury Lopez, former third ranking junior player of the state playing the singles.

ALVER SELBERG, D.D.S.

DR. ALVER SELBERG

DR. ALVER SELBERG, recently appointed to the Crown and Bridge Staff of the College, assumed his duties on November 1, 1930.

Dr. Selberg was born at Clifford, North Dakota, August 28, 1900, and is the son of Mr. and Mrs. Lewis Selberg. He attended the public schools at Baudette, Minnesota, graduating from the grammar and high school of that city in 1918. Having decided upon dentistry as a career he matriculated in the College of Dentistry of the University of Minnesota from which he was graduated in 1922. Following graduation, Dr. Selberg became associated with Drs. Herman and Theo. Maves of Minneapolis in the Donaldson Building for two years. In 1926 an offer was presented to become a member of the faculty of Columbia University, School of Dentistry, in New York, but the severe winters of the east held no attraction for him and he continued active practice in association with Dr. H. A. Maves up until the time of the call to come west.

The splendid opportunity for perfecting himself in crown and bridge-work, dental anatomy, ceramics, and casting was afforded Dr. Selberg in Minneapolis where many of the outstanding technics in crown and bridge originated and of these opportunities he readily availed himself. Dr. Selberg was one of the clinicians with Drs. Meyers and Maves of Minneapolis at Detroit meeting of the American Dental Association when they first demonstrated the wax-expansion technic for gold castings. In 1929 he was one of a group of six men under the direction of Dr. E. T. Tinker, who conducted a Study Class for the Minneapolis District Dental Society in castings; has given clinics before the Chicago Dental Society, and at every state meeting of the Minnesota State Dental Association for the past six years. He is a member of the Masonic Order and the Delta Sigma Delta dental fraternity.

The College of Physicians and Surgeons welcomes Dr. Selberg and realizes that in his coming the students of the school will be greatly benefited by his valuable experience and excellent teaching principles.

PERIODONTOCLASIA

(AN OPPORTUNITY)

THERE are as great opportunities in general dentistry as there ever were, but there never was the opportunity in any department of health service as there is today in periodontia practice. Almost every person with any teeth, especially good teeth, requires expert periodontal attention.

All health minded individuals know that periodontoclasia is a process of infection and as such is a direct or possible source of disease or lowered vitality. Intelligent people will no longer tolerate wholesale extractions of otherwise sound teeth to eradicate a comparatively small infected area around each tooth, nor will they knowingly tolerate this infection.

Now that dental science has developed to such an extent that this disease can be successfully combatted when taken before it reaches the hopeless stage, the outstanding opportunity of the dentist is to make a diagnosis during the early stages, or better still, to anticipate its incipency and institute preventive measures.

While periodontia may not show the spectacular results in mechanical art that reconstruction work may show, still it is the very foundation upon which the success of dental work is based, for without a sound periodotium the most skillfully made restorations are of but temporary and questionable value.

Periodontia, on account of its extremely gradual and painless incipency, is usually well advanced and often hopeless before the patient becomes conscious of any trouble. This early stage, during which time proper treatment should be successful, often covers a period of years, but we find that a large percentage of patients are reluctant to avail themselves of any treatment beyond the ordinary prophylaxis. While most of the periodontal treatment being done today consists of ordinary cleaning which does very little to combat the disease, it often does much harm by giving the patient an unwarranted feeling of security.

Therefore one of the greatest services you can render the public is educational—it requires tact, diplomacy and much patience.

PAUL J. BOYENS, D.D.S.

W. F. SAYLES, '31

"Greater Love Hath No Man ..."

A COPY of the Boston Post and Tribune of January 19, 1908 contained the following article:

"Bay State Boy Saves Two From Drowning." It then went on to describe how on a certain afternoon, after enjoying a day of skating on the ice, this lad was about to make his way home when out of the approaching darkness cries of "Help", preceded by a crash of the ice came clearly across the lake. Without a moments hesitation he grabbed a cross-bar from a nearby fence and started in the direction from which the cries had come. After running across the lake, a distance of half a mile he arrived at the scene to find that a man and girl

had gone through the ice. Cautiously approaching the break, using the fencing as a support, he managed to grab hold of the girl's coat and pull her to safety. During his struggles he hailed a passerby to secure a rope from a nearby clothes line. In the meantime he had returned from carrying the girl to safety to find the man struggling, but fast becoming numb in the icy water which was around 5° below zero. After failing to grab hold of the bar held by the boys the man was fast losing consciousness. A lady returned with a rope which the boy made into a lasso and tossed it toward the man, catching his outstretched wrist as he was going down for the third time. This lad then weighing scarcely over one hundred pounds held the dead weight of over two hundred until help was secured.

We are proud to present Bill Sayles, of the Class of '31, the hero of this act of bravery, along with the Medal presented him by the Carnegie Hero Fund.

SONS OF DENTISTS

THAT dentistry still presents unusual opportunities to those trained for the profession is borne out by the ever increasing number of practising dentists who are sending their sons to dental college.

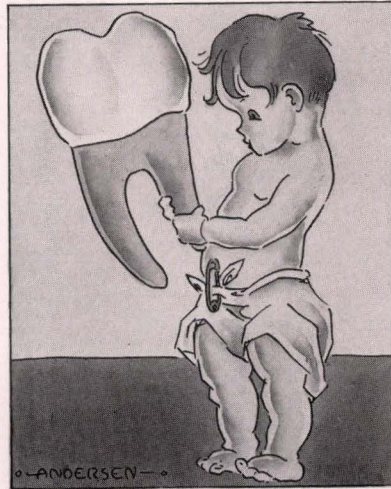

This year finds seventeen students at P. & S. who will follow in the footsteps of their dad.

In the Senior Class there are three who will shortly be either assisting in their dad's practice or succeeding them.

Al Lockwood, son of the late Dr. A. T. Lockwood of Fresno; Herb Rosen, son of the late Dr. B. Rosen of San Francisco; and Gord Tambling whose father is practising in Oakland soon expect to bid farewell to college days after five long and tedious years.

In the Junior Class Dave Bergman, E. B. Cosad, and Hollis Snell hope to join their dads in another year.

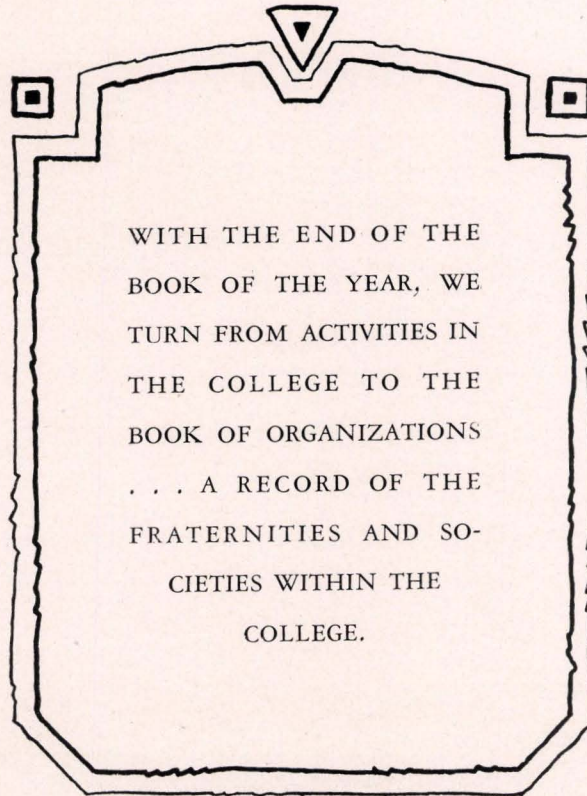

L. A. Harding, Ed Keeffe, L. C. Lee, Otis Miller, H. R. McNeil, and Jack Parr are finishing their Sophomore year, while Leonard DeMartin, Bill Lane, George Rader, and Denton and Lewis Rees comprise the Freshmen.

ALTHOUGH the progress of Nu Nu Chapter during its four years life has not been meteoric, it has, never-the-less, been substantial. To build slowly and firmly instead of speedily and shakily has always been one of the chief aims of the fraternity. The chapter has in the past four years met with success along certain lines and it has also been forced to admit certain failures. Happily, however, the failures have been in the minimum.

In a professional fraternity, social functions are a secondary issue. The amount of work required by the school during the year tends to keep social functions in a position of secondary importance. This is probably as it should be because the fraternity primarily is for the good and enhancement of the profession. However, Nu Nu Chapter has managed to squeeze in a few affairs not included in the college curriculum. The smoker to the Freshman Class, the joint dance given by Zeta and Nu Nu Chapters at the former's house, and the Lew Mitchell banquet of last November have helped the fellows forget the cares of their studies for a while.

During the year the following of nature's noblemen became active members: C. R. Currier, Jack Abbott, and R. Francis Kelley.

Xi Psi Phi

ALPHA PHI Chapter of Xi Psi Phi considers the year just past an outstanding success in the history of the chapter.

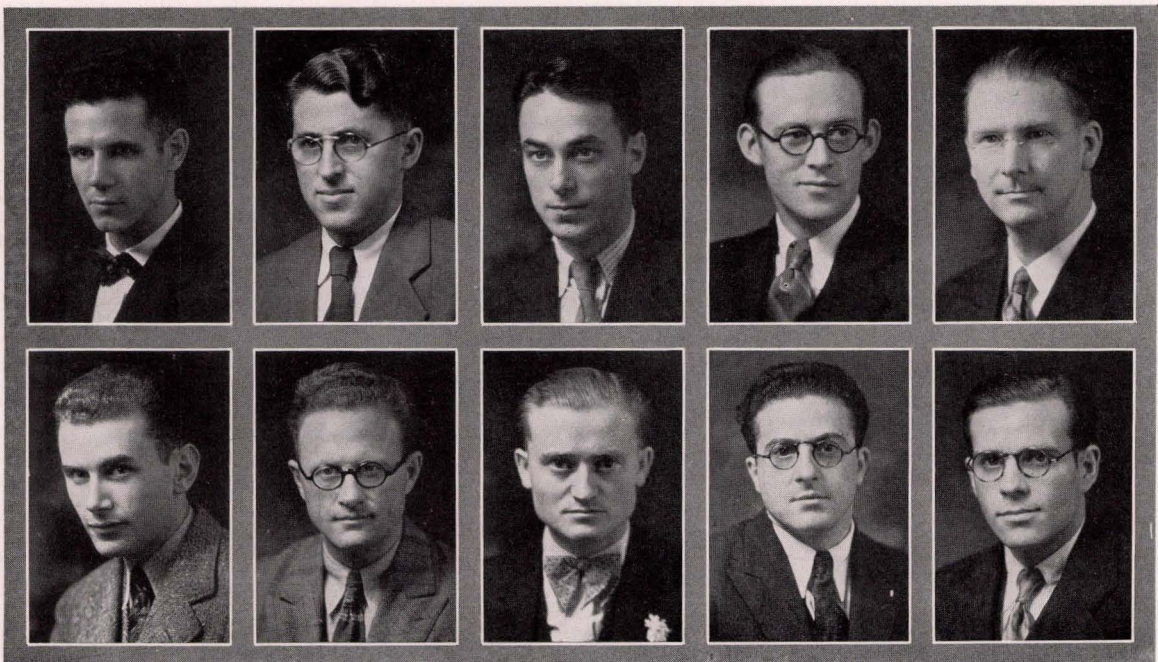

Members of the fraternity have been among the leaders in both scholastic and social activities. The fraternity itself has enjoyed several social events and two initiations. The new men taken in as active members during the past year were T. Buckman, Dave Fox, H. Knowles, A. Marsan, R. Sabini and H. Tagliaferri. All will be present next year with the exception of Al Marsan, who is a member of the Senior class.

At the last election, the following men were chosen to carry on next year: Ben Reinke as President; Louis Hoeffler, Vice-President; Dave Fox, Secretary; Lawrence Carlsen, Treasurer; Tom Buckman, Master of Ceremonies; and Don Miller, Editor. We are sure that with such capable leaders the Zips will continue to hold its place among the fraternities in the college.

Two Zips were among the seven men to be chosen to operate before the California Study Club for the gold foil award, namely Art Goodwin and Frank Inskipp. Art Goodwin is also Editor of *Chips* and Lawrence Carlsen his assistant.

We grieve to think of losing so many of the boys through graduation, but on the other hand are glad that they have attained the goal we all are endeavoring to reach. May they return often after they have left, and may they forever continue to be the loyal Zips that they were during their college years.

Psi Omega

1 1

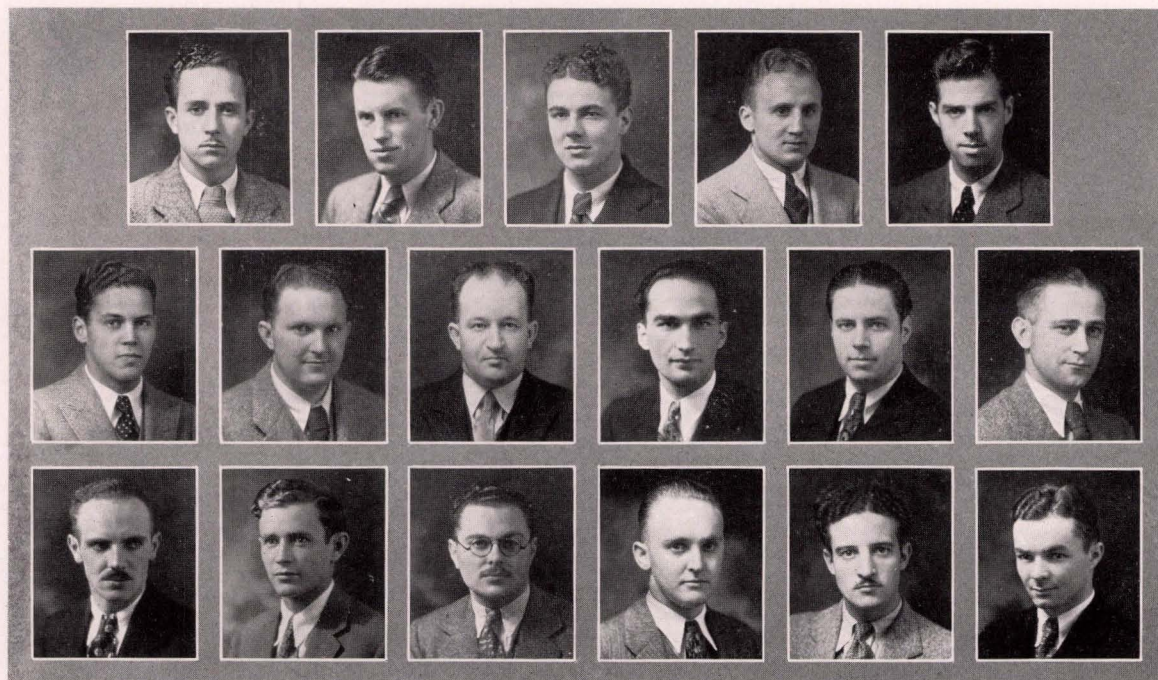

BETA SIGMA Chapter of Psi Omega looks back with satisfaction over its thirty-third year of existence at the College of Physicians and Surgeons. Socially the chapter has been very active. In the fall term the most prominent functions were the Freshman Reception held at the chapter house on the evening of September 13, Open house October 10 following the Freshman Reception given by the school, an informal dance given at the chapter house on October 25, and last but not least, on November 22, the Stanford-California Big Game dinner dance was held, also at the chapter house.

The spring term was equally eventful. The first event was Open House Night on New Year's Eve. Probably the most prominent function of the entire year was the smoker given the Freshman class at the Cafe Marquard. Dr. West was toastmaster and Dr. Gurley and Dr. McDowell were the principal speakers. The final dance of the year was held at the chapter house on Saturday evening, March 14.

The new pledges of the year were E. D. Keeffe and W. A. Hagans, whom we are glad to welcome into the Psi Omega fraternity.

Beta Sigma extends greetings to all sister fraternities, and wishes them success for the ensuing term.

DUE to the small group of men in the chapter this year, Kappa Chapter was not as active as in previous years. However, this did not diminish the spirit of the group. Among the events of the year we find that the chapter at school and the one at U. C. united to act as hosts to the Western States Conference held in October. Evidently the out-of-town fraters must have had a good time to select San Francisco again as the site for next year's conference. This is the first time that a conference has been held twice in succession in the same city.

Other important events have been the monthly clinics held by the alumni and the active chapter alike. Among the well-known men to act as clinicians and speakers have been Dr. Selberg, Dr. A. Gottschalk, Dr. Haley, Dr. Blaquie, and other well-known men of the profession.

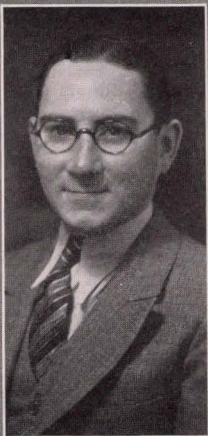

Also in this year we have initiated Sam Susnow, '33, and pledged Kauffman '33, Strauss '34, and Jacoby '34.

At the present writing there are plans being made to give the outgoing seniors of the chapter a farewell dinner dance.

The election of new officers for the year 1931-32 are as follows:

Chancellor LEO DOBBINS '32
Scribe MORRIS DIAMOND '32
Treasurer P. F. GLAIBERMAN, '32

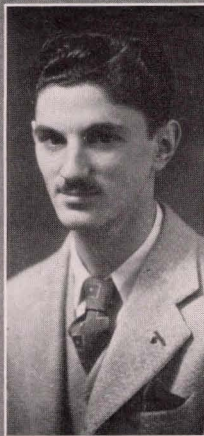

H. C. CHARYN.

V. Goldman

J. Jacoby

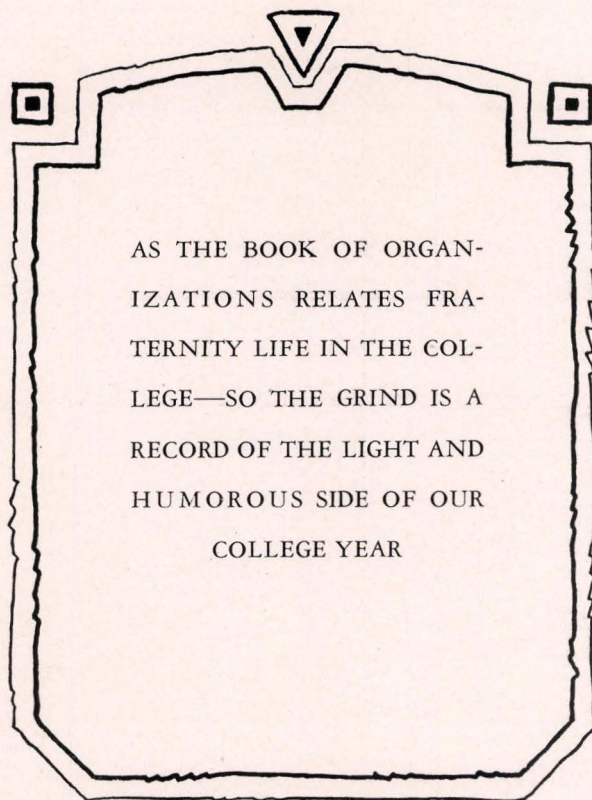

S. Kauffman

R. Strauss

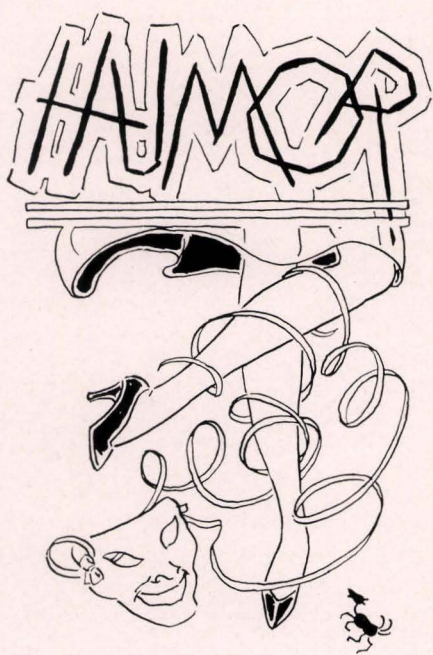

S. Susnow

THE GRIND

Not to be insinuating, but the lyre does not seem to be out of place with either of the above two "buddies."

Two dental students met in the alley next to the college in cars, neither being able to pass. One being very hot tempered shouted to the other, "I never back up for any damn' fool."

The other driver calmly threw his car into reverse and backed out, saying, "O. k., pard. I always do."

Fahden: You look bad tonight, girlie.

She: Well, the mud on my shoes proves that I ain't.

Kelley: I hear that your girl has Athlete's Foot.

Wheeler: (rubbing seat of trousers): No, but her old man sure has!

Lockwood: You're a little rounder. . .

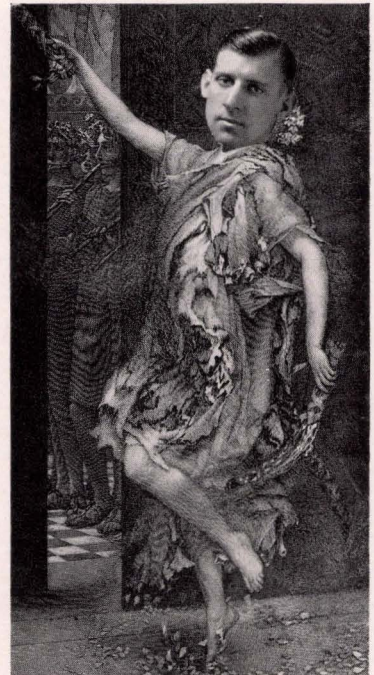

She: Beg Pardon?

A. T. Jr.: You're a little rounder than when I saw you last. I guess you're taking on weight.

Bobby Yore thinks that because he makes the train every morning he should call it *she*.

Sorensen: I love you in the first place because of your divine form, in the second place because you're so sweet and wholesome, and in the third place, because of your divine form in the first place.

Hints to Graduates: The stork is the bird with the longest bill.

We have often hoped that the Dramatic Club would put on a Ballet, with such good material as we have above.

She was only the opticians daughter—two glasses and she made a spectacle of herself.

‘ ‘

“Here’s where I lose ground,” said Weaver, as he slid into the bathtub.

‘ ‘

Scott: Gee, I feel like a three-year old!

Tambling: Horse or egg?

‘ ‘

Goodwin: “What day is today?”

Lockwood: “Wednesday.”

A. R.: “My God, I’m late.”

Sweet Young Thing: Stop! My lips are for another.

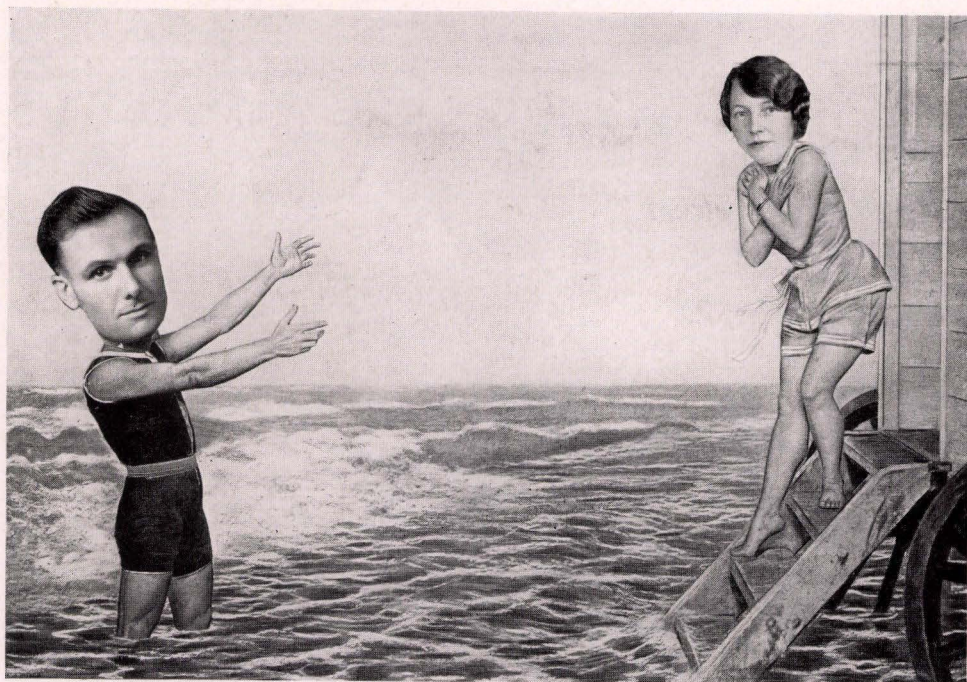

Camp: Well, hold still then and you’ll get another.

‘ ‘

We know a senior who fell asleep during the commencement exercises because he counted the sheepskins.

‘ ‘

There is only one more thing to be feared. Warner Brothers and the Sunshine Biscuit Company might combine to make talking animal pictures.

Yes, these two should get together. Marie is the only one of her kind in the school, and Frank is the only one of his kind in any school.

Above we present "Casey" Wong presenting a valuable address on when to sell stocks.

It's a *festa* in Spain, but in Chicago it's a murder.

AND HOW!

She was all mystery . . . her slim
Body, her mind, her glance, her pout;
He wondered what she thought of him.
He married her . . . and he found out!

What this college needs is a good five
cent miniature golf course.

Ward: What's he like?

Bill: Oh, he's the sort of person who'd
walk into the house of a dead person eating
an apple, spit out the seeds and say, "Howdy,
folks, where's the body?"

R. A. Bishop: I've answered your ad for a
handy man, sir.

Bigg Business Man: And what are your
qualifications?

Bish: Well, for one thing, I live next door.

"What," asked the professor, "are the
silent watches of the night?"

"The ones the boys forget to wind,"
drawled the boy in the back row.

Andy: "What usually follows a snow
storm?"

Molly: "A snow-plough."

Yes, Earl was to be the Valedictorian but he lost his plate and is waiting for one from Montgomery Ward's.

We take pleasure in presenting these three heroes of the deep. While two of them fed the fish until they were goofy, the other sneaked up and hit them on the head.

Shylock: "Certainly, I'm going to be an aviator. Why, I've been air-minded for years."

Chet: "Well, I guess I better report to a garage. I've been tow-headed ever since I was born."

"Likker grieves me." And so saying Sorensen choked down his sorrow.

Put your gun away, Mr. Blutz, I'm just trying to see if your daughter has a broken rib.

TRY IT!

Voice (over phone): Is this Mr. Snah?

Mr. Snah: Yes, this is Mr. Snah.

V. O. P.: Hold the line a minute please.

Mr. Snah: All right. (Lapse of one minute)

V. O. P.: Your minute is up, thank you. (click)

Mr. Snah: BANG!

Inskipp: Why don't you put *Wet Paint* on that bench?

Painter: I did.

Improve this sentence—A big crowd applauded Inskipp.

Improved—A big crowd murdered Inskipp.

‘ ‘

In the box it's shredded wheat—
In a cigarette it's tobacco.

‘ ‘

"Has the doctor you're engaged to got money?"

"Sure, did you think I gas getting married for my health?"

Stultz: That's a poor blade you have in your razor.

Yore: Well, it was good enough for my father and it's good enough for me.

‘ ‘

"When a man has too much to drink," says a doctor, "he should ask for some bisurated Magnesia."

But when a man has had too much to drink he can't say bisurated magnesia.

‘ ‘

A busy day in the new casting room.

EASY COME

In restaurants I ate my grub
And paid in greasy payments, and here and there I drove a tub
I got on wheezy payments.

I called the doctor for a cold—
The cost—just sneezy payments.
I bought a dog—tho somewhat old,
He came on fleasy payments.

So I grew trained in etiquette
Regarding pleasie payments
And got a better bargain yet—
My wife—on squeeze payments.

A big buxom lady walked into the village general store and said, "I want some collars for my husband. But I've forgotten the size."

"Thirteen and a half Ma'am," suggested the clerk politely.

"That's right, How on earth did you know?"

"Well, men who let their wives buy their collars usually wear that size," answered the clerk.

Why is a flapper like a bungalow?

Shingled on top, painted in front, and no attic.

Most flivver wrecks are due to tight nuts.

"Sweetheart," gushed his bride, "the grocery stores were all closed today, and—"

"I suppose I don't get any dinner," he cut in, eyeing his true love hungrily.

"No, my darling," she gurgled, "the confectionary was open, and I've made you some nourishing jelly bean soup."

Why do men cultivate hair on their lip when it grows wild on their chest?

Yes, these fellows certainly are air-minded. (Hot-Air)

Reg.: Al, you lazy bum, wake up!"

"I can't!"

"Why?"

"Because I'm not asleep."

Two farmers met on a country road, and pulled up their teams.

"Si," said Josh, "I've got a mule with distemper. What did you give that one of yours when he had it?"

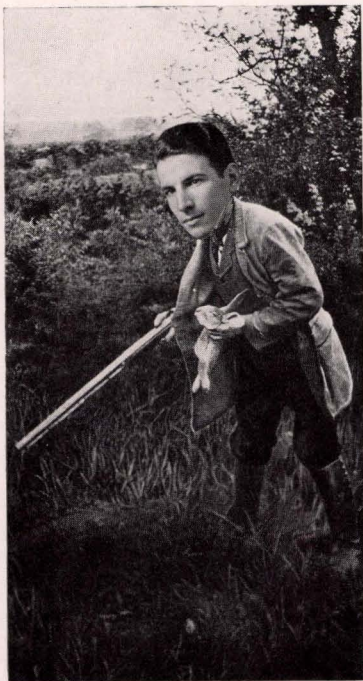

"Turpentine, Giddap!"

A week later they met again.

"Say Si, I gave my mule turpentine and it killed him."

"Killed mine too, Giddap!"

*Take it or Leave it.
(you'll never do better)*

First Dad: "What course is your son taking in college?"

Second Ditto: "The downward course, I'm afraid. "

Buck: "Do you brush your teeth every morning?"

Pete: "Yes, it's the first thing I do before going to bed."

Dr. Aubertine: "What are you late for this morning?"

Parker: "For class, of course!"

The other day a dental student got his first case. It nearly poisoned him.

Jane: "Men are like tubes of tooth-paste."

Josephine: "Why?"

Jane: "You've got to give them a squeeze before you get anything out of them."

Tommy: "Did you go out last night?"

Al: "No, I was fully conscious all the time."

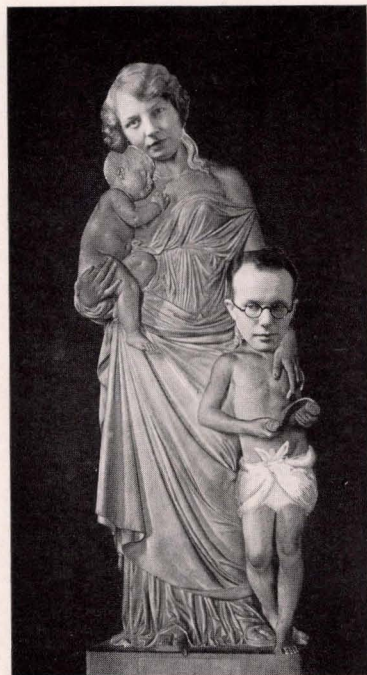

"And why do you call me Pilgrim?"

"Because every time you call you make a little progress."

Clegg: "I was up till four o'clock last night."

Cox: "What for?"

Clegg: "Four A. M., you sap."

*And a little child shall
lead them.*

The Girl: "Please don't take hold of my arm. Whatever should I say to mother if she saw us?"

Bascom: "Oh, you could say I was your brother!"

‘ ‘

Yore: "A chicken please."

Rhoads: "Do you want a pullet?"

Yore: "No I wanta carry it"

‘ ‘

Didja ever hear about the girl with full-blown eyes?"

One blue one way the other blue the other.

‘ ‘

"The new nurse I have is good."

"Gee, that makes it bad for you."

She: "Why are you calling on me in a business suit?"

He: "I mean business."

‘ ‘

"Scott Morrison has a bed eight feet long. That's a lotta bunk."

‘ ‘

"Say, that fellow I was out with last night simply couldn't keep his mind off his business."

"What's his line?"

"He's an Explorer."

‘ ‘

"I hear your rich uncle is dead.

He left you something, I suppose?"

"Oh, yes—penniless."

Green-Room As We Would Have It.

Something new in Gowns.

A dame delightful is Mary
Scott;
Never sober when you're not.

"Yes," said Inskipp, I was left
without a mother and father at
nine months, and ever since I've
had to battle along for myself."

Curt: "How did you manage to
support yourself at nine months?"

E. F. I.: "I crawled to a baby
show and won first prize. That
was the way I started."

A hard hearted girl is Hilda
Hetting;
Likes her pets, but not her pet-
ting!

Mrs. Lloyd: "Ah, my poor fel-
low, life is full of trials."

Stude: "It is, ma'am, What
were you tried for?"

Inskipp being questioned at
Ellis Island:

"Have you heard of Washing-
ton?"

"No."

"Lincoln?"

"No."

"Cleveland?"

Frank's face brightened.

"Is his last name Ohio?" he
asked.

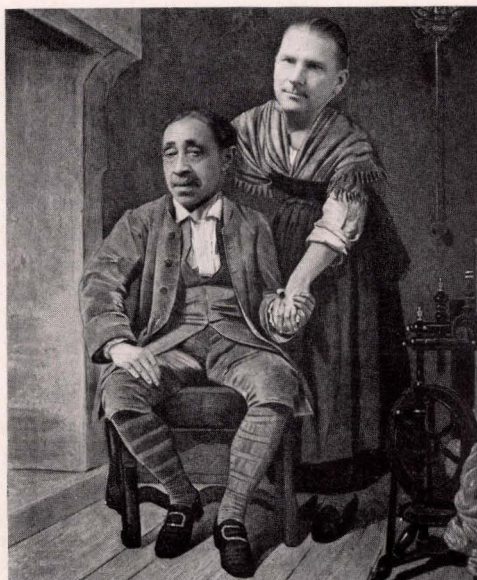

"I turned my back on that
man."

"And then?"

"The cad recognized me."

Bergman: "I got a wonderful
letter from my father today."

Buckman: "Yeah? How much
did he send?"

Who was best man at this affair?

Bobby: "Do you still run around
with that little blonde?"

Ed: "She's married now."

Bob: "Answer my question."

✓ ✓

"He has the most magnetic per-
sonality."

"Yes, even his clothes are
charged."

✓ ✓

Fashion Note: The most popular
shades this year are those that stay
up at night.

✓ ✓

Prof. Hackh: "I just read that edi-
torial of yours in *CONTACT POINT*."

Inskipp: "My last one?"

P. Hackh: "I hope so."

(Loud applause)

And don't you fear
Miss Martha Rapp;
There is no power
Behind her slap!

✓ ✓

Him: "Ain't the dance floor
crowded?"

Her: "Crowded? Say, half an hour
ago I fainted and had to dance
around the floor three times before I
could fall.

✓ ✓

"I have a bone to pick with you."

"All right. Name your restaurant."

✓ ✓

A friend in need is a friend to
be avoided.

THE JAMES W. EDWARDS COMPANY is entering the fiftieth year of its existence.

During all those years we have dedicated our labors to the upbuilding and betterment of dentistry. The founder of this business was a dentist and understood the needs and requirements of the profession. Our attitude toward dentistry has always been one of ethical helpfulness.

It has been our belief from the beginning that the dental profession's best interests are our best interests, and in this belief we have, for fifty years, done our bit to help maintain the best traditions of dentistry.

Our success has justified our policy.

ONE of the old philosophers is credited with having said, "After all we do those things which we really want to do."

An analysis of our conduct from day to day really proves the correctness of this philosophy. Our accomplishments, yours and mine, are the direct result of a determination to accomplish.

Strange to relate, many of the world's greatest accomplishments are the outgrowth of dreams — sometimes just day dreams. Dreams only become realities when the dreamer has the determination to see them through.

The idea that you would attend Dental College and become a member of a noble profession was, at one time, more or less a dream. Remember? You possessed the determination to make that dream a reality.

And peculiar as it might seem, all of the time that you have been accomplishing your object, you have been dreaming of other things — among them a successful professional career.

Your ability to make this dream a reality again depends upon your determination; however, you must not handicap yourself by an uncomplimentary introduction to your patients. Remember —

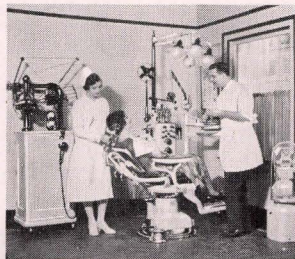

"A dentist is accepted by his patients as being as modern as his surroundings indicate."

Ritter's 40 years of experience is yours for the asking.

Ritter Dental Manufacturing Company, Inc.
Rochester, New York

RITTER

MAKE THAT DREAM COME TRUE !!

A modern Ritter operating room. If you haven't already received a copy of our booklet, "Labeled for Years to Come," write for it now.

Revelation Tooth Powder

Never in Paste Form

CLEANLINESS without injury to tooth structure or tissues is the most essential necessity in a dentifrice.

INJURIOUS SUBSTANCES — as GLYCERINE GRIT, CHLORATE OF POTASH, or any CORROSIVE COMPOUND should not be incorporated in the manufacture of a dentifrice.

GLYCERINE is a depletant, it saps the moisture from the tissues, which naturally will recede, exposing the periodontal membrane, causing sensitiveness and bleeding. This moisture in the cellular tissue is essential to the healthy condition of the membrane.

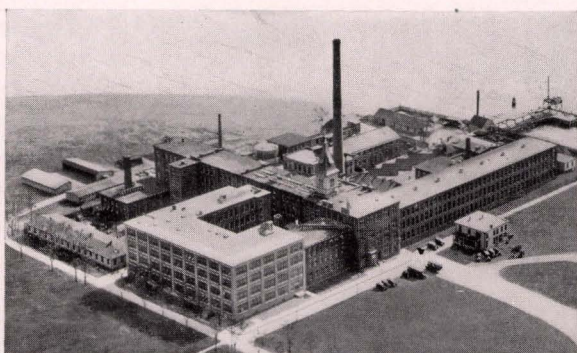

REVELATION is never in paste form and contains none of the above-mentioned drugs.

Give it a trial at the chair in dissolving the plaques, removing stains and polishing the enamel and gold work.

AUGUST E. DRUCKER COMPANY

2226 BUSH STREET

SAN FRANCISCO

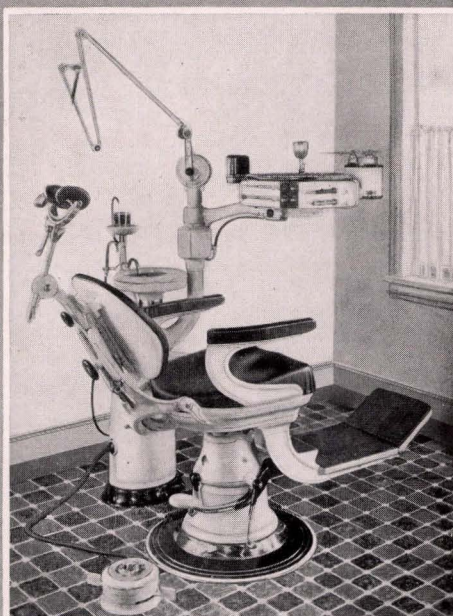

Considerations of Vital Importance to the Equipment Purchaser

It is only natural to expect claims for excellence in design, materials, and workmanship in the manufacturer's description of his product. To anyone unacquainted with S. S. White methods and policies such claims would make little or no impression any more than the customary language of advertising. When, however, one gives a little thought to the history of a producing organization and to its recognized business policies, the printed words about its product have more significance.

The S. S. White Dental Manufacturing Company commenced its history in 1844 by making and selling only the best dental supplies possible of production. In its long business existence an enviable reputation for doing things right has extended to all parts of the world. S. S. White goods are accepted everywhere as the highest standard in dental supplies.

In the manufacture of dental chairs and equipment at Prince Bay, Staten Island, N. Y., the accuracy and thoroughness of construction simply reflect the general principles of S. S. White production. No detail is slighted, no parts are unimportant because they may be concealed from view, no work is done on the "good enough" basis. Likewise no material is used to save cost and increase profit, and compromise quality. That is why S. S. White engines, handpieces, steel goods, chairs, and equipment give years and years of uniformly excellent service. That is why generations of dentists have continued to purchase S. S. White products. That is the plain reason for their ultimate economy.

Upon request, we will gladly mail literature on S. S. White Operating Room Equipment, together with a booklet giving suggested technique for the utilities of the Accessory Table, and a general catalog of S. S. White Products

OF COURSE

...you'll want your own x-ray unit

FREQUENT use of the x-ray is one of the ways by which the public is learning to distinguish the progressive dentist. More and more the leaders in the profession are installing their own x-ray units.

They find that making their own radiographs enables them to render better service, to make their time more profitable. They soon become expert in interpretation. And this ownership of an x-ray unit proves to be not an expense, but an investment from which they get a steady yield.

The Victor CDX Dental X-ray Unit has been a great factor in creating this vogue for individual ownership. The Victor CDX

hangs suspended from the wall. It is electrically safe. Both transformer and tube, insulated in oil, are enclosed in the tube head. There is no high tension current exposed anywhere. You and your patient can touch the CDX anywhere while it is in operation. There is no danger of shock.

Let us send you the facts drawn from the experience of successful practitioners about this modern unit. It makes radiography almost as simple as photography. As you start out, you cannot afford to be without this important tool of your profession. Ask us for details of monthly payment plan.

Your Most Valuable Possession

Of the young dentist recently graduated from college we might ask, "What is your most valuable possession?"

Regardless of the significance of his diploma and the value of his education, he realizes that his most valuable possession is the well-earned opportunity to establish himself in his chosen profession.

In this connection we can be of assistance.

Our contact with a large number of successful professional men has given us an opportunity to observe those factors that make for success.

Such things as office location and arrangement have an important bearing on success.

Talk over your problems, in confidence, with us.

The longest years, the shorter years—the greatest promotions, that are the least—perhaps the most eventful five years we shall ever spend are those which have just passed. We have become older and wiser only to know that we are still without age or wisdom . . . but many pictures have been buried in the corridors of our memories. And so we have passed through the log of those days when '31 was at college, from baggy Pre-Dents and care-free youngsters to Seniors and graduation . . . five kaleidoscopic years.
